Dear Friends:

As winter held it's grip on most of the country, sunny Florida offered warmth and hospitality at the 1994 FUN Convention. The show was typical for F.U.N.-active! Lot viewing bordered on hectic at times as everyone sought to view their favorite lots.

Some highlights:

1858	Flying Eagle Cent	PR63	ANACS	\$2,310
1879/8	Shield Nickel	PR66	PCGS	\$1,155
1925-S	Buffalo Nickel	MS64	PCGS	\$2,640
1837	Bust Half Dime	MS64	PCGS	\$2,915
1899-S	Barber Dime	MS66	NGC	\$3,190
1926-S	Mercury Dime	MS65FB	PCGS	\$3,465
1926-S	Standing Quarter	MS66	PCGS	\$4,400
1875	Trade Dollar	PR65	NGC	\$4,730
1905	L & C Gold Dollar	MS64	PCGS	\$6,710
1865	Three-Dollar	PR64	NGC	\$17,600
1796	Eagle	AU55	ANACS	\$16,610
1912	Indian Eagle	PR63	NGC	\$10,340
1925-D	Saint-Gaudens	MS63	PCGS	\$5,500

Our next sale open to consignments is the Early Spring ANA Bullet Sale. The deadline is February 16.

Yours truly,

Leo Frese
Consignment Coordinator

Dear Fellow Numismatists:

Welcome to our initial sale of 1994. There couldn't be a better way to start off the year than to conduct a sale in Orlando, Florida on the eve of the 1994 FUN convention. We expect the new year to be a banner one for Heritage Auctions.

The sale you hold in your hands is a \$1.5 million auction loaded with a number of outstanding highlights.

1919	Lincoln Cent	PCGS	MS68 RED
1854 II	Three Cent Silver	PCGS	MS66
1863	Half Dime	PCGS	MS67
1916	Standing Quarter	NGC	MS64
1929-S	Standing Quarter	NGC	MS67
1875-CC	Seated Half	PCGS	MS66
1921-S	Walking Half	PCGS	AU50
1940	Walking Half	PCGS	PR68
1882-S	Morgan Dollar	NGC	MS68
1934-S	Peace Dollar	PCGS	MS66
1855-C	Gold Dollar	NGC	AU50
1850-D	Quarter Eagle	NGC	MS61
1860-C	Quarter Eagle	PCGS	AU50
1895	Quarter Eagle	NGC	PR66
1907	Wire Rim Eagle	PCGS	MS64
1920-S	Indian Eagle	PCGS	MS62
1866-S Motto	Double Eagle	NGC	AU58
1931-D	Saint-Gaudens	NGC	MS63
1921	Alabama Half	NGC	MS66

Also included are a number patterns and territorial gold pieces. We also offer the largest selection of 1892 & 1893 Columbian halves we've ever had. Pick out a single coin, or bid on lots of 10 or 20. An offering like this comes only once in a great while!

Everyone here at the Heritage offices would like to thank you for your business in 1993 and we look forward to working with you in 1994. Have a great year!

Yours truly,

Leo Frese
Consignment Coordinator

P.S. Remember, phone bidding will be strictly limited to lots valued in excess of \$500.

Pick One of Four Easy Ways to Bid in the Bullet Sale

Now, it's easier than ever to get the coins you want at the Heritage Bullet Sale. You can attend the sale in person at The 39th Annual F.U.N. Show, Wednesday, January 5, in Orlando, Florida, or you can place your bid by mail, FAX, or phone. It's easy...

#1 Bid In Person!

#2 Bid By Mail! Prior to the sale, you can bid on the coins you want by mail. Simply complete the enclosed Bid Sheet with your bids on the coins you want and send it in. If yours is the high bid on any lot, we act as your representative at the sale. Also, don't forget to use CompuBid™ to help you manage your coin buying budget. For more information, please refer to the following pages on "Mail Bidding" and "CompuBid™." **Mail bids will be accepted until 4:00 p.m., Tuesday, January 4, 1993.**

#3 Bid By FAX! You can also submit your bids by FAX. Just follow the instructions for completing your mail bid, but this time FAX it! To FAX your Bid Sheet, call the Heritage FAX Hotline: (214)520-6968! **FAX bids will be accepted until 4:00 p.m. on Tuesday, January 4, 1993.** Please see the section "Heritage FAX Hotline" for more information.

#4 Bid By Phone! Call 1-800-US-COINS! For even faster service, you can place your bids directly by phone. Call 1-800-US-COINS and tell us your bids on the coins you want. **Phone bids will be accepted until 4:00 P.M., Tuesday, January 4, 1993.**

NEW SERVICE: Bid By Phone During The Sale ON COINS \$500 OR MORE! You can actually participate in the auction itself by phone! Your Heritage agent bids for you LIVE on the bidding floor, according to your telephone instructions! It's just as if you were in person! See the column at right for details.

You Can Receive Your Coins In Less Than A Week!

Wednesday, January 6. You're a successful bidder on coins you want.

Thursday, January 6. Established "open account" customers are mailed their coins by the U.S.P.O.'s "Express Mail" service. Your purchases will be delivered to your address on Friday, January 7. Customers with whom we are unfamiliar will receive instead a phone call notifying them of their successful bids. If you send your payment by over-night mail, your purchases will be mailed from our offices "overnight" upon receipt of good funds.

Tuesday, January 11. All payments must be postmarked no later than this date.

How to Bid By Phone. It's Fast! It's Fun! In Five Easy Steps!

No travel. No hassle. You can sit at home and bid on the coins you want valued over \$500 just as if you're in the heat of the auction action! Your Heritage representative calls you and acts as your agent on the bidding floor. It's just as if you were there in person! Here's how...

Step One: Choose Your Coins. Look through the catalog and pick out the coins you want to bid on in the sale with a value over \$500.

Step Two: Let Us Know. Use the Mail/FAX Bid Sheet enclosed to write down the lot numbers of the coins you've selected to bid on. Then, send it to us by mail or FAX (214-520-6968). **OR YOU CAN GIVE US THIS INFORMATION OVER THE TELEPHONE BY**

CALLING 1-800-US-COINS. For you to participate by telephone in this sale, **WE MUST HEAR FROM YOU NO LATER THAN 1:00 P.M. Tuesday, January 4.**

Step Three: Be Prepared. Make a list of the lot numbers you want to bid on and the top bid you want to place on each lot. Be ready by the phone to take the call from your Heritage representative. He or she will call you just before the lots you want are up for bidding. The auction will begin promptly at 7:00 p.m., Wednesday, January 5. Lots are sold in ascending numerical order at the rate of about 200 lots per hour, so you can estimate when your representative will be calling. **REMEMBER: A LIVE AUCTION CAN MOVE VERY QUICKLY. A LOT CAN SELL IN LESS THAN 5 SECONDS. SO IT IS VERY IMPORTANT FOR YOU TO BE READY BY THE PHONE TO TAKE THE CALL WHEN IT COMES.**

Step Four: We Call You. When your Heritage agent calls, he or she will ask for your bid on the lot you wish to buy and keep you informed as the bidding progresses. You are in control. Your Heritage agent will bid only according to your instructions.

Step Five: We Have A Winner! You will know immediately if yours is the winning bid. As soon as the auctioneer declares the lot sold, your Heritage agent will relay the news to you. It's that easy!

Mail Bidding At Auction

Mail bidding at auction is both fun and easy and only requires a few simple steps.

1. Look through the catalog, and determine the lots in which you have interest.
2. Research the market value of these lots by checking price lists and other price guidelines.
3. Fill out your bid sheet, entering your maximum bid on each lot using your price research and your desire to own the lot (most coins auctioned are one-of-a-kind, or of special quality not normally found).

WHEN BIDDING BY MAIL, YOU FREQUENTLY PURCHASE LESS THAN YOUR MAXIMUM BID. Here is how a mail bid is recorded by our auctioneer:

Bids are recorded as they are received. Preference is given to the first bid received in case of a tie.

An example of this procedure is set forth under these conditions:

On lot 25, you submit a bid of \$1,000, and the second highest mail bid is at \$500. In this case, bidding on the floor starts at \$550, and is bid by our company on your behalf. If other bids come from the floor, we bid for you in 5-10% increments, as set by the auctioneer, until we reach your maximum bid of \$1,000. If bidding has passed or equaled your maximum, we take no other action, and the bidding continues on the floor until the final bidder has been recognized by the auctioneer.

On the floor of the auction, bidding is opened at 5 to 10% above the second highest mail bid. This bid is submitted by our company acting on your behalf as the highest mail bidder. If the auctioneer recognizes no other bids from the floor, you are awarded the lot at the opening bid. If bidding proceeds from the floor, the company, acting as your agent, registers bids in 5 to 10% increments over the previous bid. This process is continued until you are awarded the lot, or until the next bid is higher or equal to your maximum bid.

CompuBid™ gives you more "on-the-scene" bidding clout than you ever had before.

CompuBid™ is a people-to-people innovation that is, by far, the most advanced and helpful method of mail bidding available in the rare coin marketplace. No other auction company has anything that even compares with its simple sophistication and direct benefits to you.

It increases your chances of success.

CompuBid™ increases your chances of success over our standard mail bidding system and other conventional mail bidding systems two ways: it increases your chances of bidding on more coins; it increases your chances of buying more of the coins you want.

It puts you where the action is.

The action is at the auction. And CompuBid™ puts you there. It gives you almost all the advantages of the people attending the auction. In fact, CompuBid™ gives you so much flexibility, it's as if you were attending the auction in person.

It maximizes your bidding dollars.

CompuBid™ enables you to bid on as many coins as you like, yet limit your total purchases to a specific amount. For example, you could bid on \$25,000 worth of coins, yet limit your total purchases to \$5,000. In this example, although you have the opportunity to bid on several coins that interest you, it is still possible to stay within your buying limits. This way, knowing that you have limited your bidding dollars to a specific amount, you can bid with more confidence and flexibility than ever before.

It evens the odds for you.

CompuBid™ equalizes your chances of bidding successfully against the bidders at the auction on the coins you want to buy. For example, assume you want to buy either a Seated dime for \$500 or a Seated quarter for \$950. You would bid on both coins in those amounts and place your bidding limit at \$950. If you bought the Seated dime for \$500, your bidding limit would be reduced to \$450 ($\$950 - \$500 = \$450$), which would be your new bid on the Seated quarter. However, if you did not buy the dime, then your bid of \$950 on the quarter would be accepted.

In another example, suppose you wanted to buy one gem proof Mercury dime for \$500. Assume there are three similar quality proof dimes in the sale, all with the same date and grade. You would bid \$500 on all three and limit your purchase to \$500. You would buy the first one to sell for \$500 (or less) and the other bids would be canceled.

It's a tested and proven success.

CompuBid™ has proven to be the most effective and useful auction mail bidding technique available. No other auction company has the advancements in mail bidding technology and documentation necessary to offer a service as important and historically significant as CompuBid™. In fact, CompuBid™ is so precise that Heritage Numismatic Auctions, Inc. unconditionally guarantees that you, the bidder, will not be liable for any purchase over your specified limit.

Terms and Conditions of Sale

1. This is a public auction and mail-bid sale held by Heritage Numismatic Auctions, Inc., a licensed and bonded auctioneer (the "Auctioneer"). **Although the Auctioneer may not withdraw any lot after a call for bids has been made with respect to that lot, the consignor of the property included in the lot may bid on and purchase the lot at the auction sale for his own account.** Notice of the consignor's liberty to bid is hereby made in accordance with Article 2 of the Texas Uniform Commercial Code. The purchase of a lot by consignor's bid shall obligate such consignor to pay a fee to the Auctioneer.
2. The highest bidder acknowledged by the Auctioneer shall be the buyer. In the event of any dispute between bidders, the Auctioneer may at his sole discretion immediately put the lot up for sale again. The Auctioneer's decision shall be final and binding upon all bidders.
3. A buyer's premium equal to 10% of the successful bid price will be added to each invoice, unless the purchase is made by a consignor's bid on the consignor's property in which case a different fee is charged as a Consignor than as a Buyer. The premium and/or the fee are payable by the buyer as part of the total purchase price.
4. All bids are to be per lot as numbered in this catalog, and no lots will be broken. The Auctioneer reserves the right to group two or more lots together and to withdraw, prior to a call for bids, any lot or lots from the sale. Bids will be accepted in whole dollar amounts only.
5. All sales are strictly for cash in United States dollars (no credit cards accepted) and are due and payable immediately upon receipt of the auction invoice or notice, or if payment is to be made at the auction sale, simultaneously with receipt of the coins. For mail/FAX/phone bidders, payment for your lots must be postmarked or sent Federal Express on or before Tuesday, January 11. The Auctioneer reserves the right to void a sale if payment in full of the invoice or notice is not properly mailed or sent as above, or is not received by the Auctioneer within 13 days after the date of the sale. Successful floor bidders must pay for lots by NOON, E.S.T., Thursday, January 6. Lots delivered in the States of Florida, Texas, and California are subject to all applicable state and local taxes, unless appropriate permits are on file with us. Shipping, handling, and insurance charges will be added to invoices for lots delivered by mail. Overseas buyers must furnish their own insurance during shipment.
6. All successful mail/FAX/phone bidders will be notified by telephone on Monday, January 10. If the auction invoice(s) or notice of successful bids submitted by the Auctioneer is not paid in full upon the date of the auction, **the unpaid balance will bear interest at the highest rate permitted by law until paid from the date of the auction, and if the Auctioneer refers the invoice(s) to an attorney for collection, the buyer agrees to pay attorneys fees, court costs, and other collection costs incurred by the Auctioneer.** If bidder's check is dishonored, or bidder fails to timely make payment when due, in addition to the interest on the account bidder shall be charged the maximum statutory processing fees and late charges set by applicable state law. The courts of Dallas County, Texas, shall have exclusive jurisdiction and venue over any suit initiated by the Auctioneer to collect delinquent invoice(s) or any matter relating to the purchase, and all bidders consent to in personam jurisdiction of the State of Texas.
7. Mail bidders who have not previously established credit must furnish satisfactory references well in advance of the sale date, or send a deposit of 25% of their bids which is applicable to purchases. Any portion of such deposit not used will be promptly refunded after the sale.
8. All bidders who have mailing addresses outside the United States of America, the Territories of the USA, Canada or Mexico, or have addresses through the U.S. Military, must deposit with the Auctioneer 25% of the total amount bid in United States dollars. Any portion of such deposit not used will be promptly refunded after the sale. Also, persons who have APO or FPO box numbers must deposit 25%.
9. The Auctioneer reserves the right to require payment in full before delivery of the merchandise to the buyer. **Bidder personally guarantees payment of all successful bids, and if a corporation, an officer or principal in the corporation agrees to personally guarantee such payment.** Title shall not pass to the successful bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the coins once they are in his possession. Risk of loss shall be borne by the buyer upon delivering to buyer's designated address.
10. The Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid which, in his opinion, is not submitted in "Good Faith," or as the case dictates, is not supported by satisfactory credit references, as the Auctioneer in its sole discretion shall determine. A bid is not considered made in "Good Faith" when it is made by an insolvent or irresponsible person or a person under the age of eighteen, as the Auctioneer, in its sole discretion, shall determine. In the event a successful bidder fails to pay all amounts due, the Auctioneer reserves the right to resell the merchandise and the buyer agrees to pay for the reasonable cost of such a sale, including a 10% seller's commission, and also to pay any difference between the resale price and the price of his previously successful bid.
11. The Auctioneer shall have a lien against the merchandise purchased by the buyer, and any other property of the buyer then held by the Auctioneer to secure payment of the auction invoice(s) and any other amounts due the Auctioneer from the buyer, with respect to which the Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code. In addition, with respect to payment of the auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice.
12. The Auctioneer shall have the right to offset the unpaid amount of any auction invoice(s) against any amount then due to the buyer by the Auctioneer or affiliates of the Auctioneer.
13. No buy or unlimited bids will be accepted. Mail bidders will be awarded lots at a 5-10% advance over the second highest bid. No additional commission (except for the buyer's premium) is charged for executing mail, phone, or FAX bids.
14. The Auctioneer cannot be responsible for your errors in bidding, so check your bids carefully. When identical mail or FAX bids are submitted, preference is given to the first received. If a mail bidder and a floor bidder have called identical bids, the decision of the Auctioneer and declaration of the winning bidder is final. The Auctioneer is not responsible for executing mail bids received on or after the day the first lot is sold. To insure the greatest accuracy, your bids should be entered on the standard bid sheet form and be received at the Auctioneer's place of business at least two business days in advance of the sale date.
15. Estimates will be given upon written request. It is recommended that bidders approach or exceed the estimates in order to increase the chances of bidding successfully.
16. By bidding at this sale the bidder warrants that he is of legal age, has the capacity to make the bid presented, and that the transaction is not for consumer purposes.

17. **Notice as to Warranties.** Auctioneer is selling only such right or title to the coins being sold as Auctioneer may have by virtue of consignment agreements on the date of sale and disclaims any warranty of title to the coins. Any description of the coins contained in this catalog is for the sole purpose of identifying the coins, and no description of coins has been made part of the basis of the bargain or has created an express warranty that the goods would conform to any description made by the Auctioneer. **Auctioneer disclaims any warranty of merchantability or fitness for any particular purpose; the coins are sold "As Is" without any express or implied warranty.** Coins sold referencing a third-party grading service may have various warranties and the bidder is referred to those services for details. American Numismatic Association Certification Service (ANACS), P.O. Box 182141, Columbus, Ohio 43218-2141; Numismatic Certification Institute, Inc., Heritage Plaza, Highland Park Village, Dallas, Texas 75205-2788; Numismatic Guaranty Corporation (NGC), P.O. Box 1776, Parsippany, NJ 07054; Professional Coin Grading Service (PCGS), 4533 Mac Arthur, Suite D, Newport Beach, CA 92660. Auctioneer offers no opinion as to the validity of the grade assigned by a third-party grading service. Bidder is referred to the third-party grading service for interpretation of its grading standards.
- AS THE COINS ARE SOLD BY REFERENCE TO THIRD-PARTY SERVICE'S CRITERIA AND DETERMINATION, ALL SALES ARE FINAL AND THERE IS NOT A RIGHT OF RETURN FOR ANY REASON EXCEPT AUTHENTICITY. ALL COINS ARE GUARANTEED AS GENUINE BUT ARE NOT GUARANTEED AS TO GRADE.**
- Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any property by Auctioneer to bidder.
- No third-party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the bidder and may not be assigned.
- Any statement made by the Auctioneer is a statement of opinion and does not constitute a warranty or representation.
- An employee of Auctioneer may not alter the Terms of Sale, and, unless signed by a principal of Auctioneer, any alteration is null and void. This sale is not on approval.
18. **Important Notice About Grading.** Grading is an art, not a science, and therefore the opinion of others (including trained experts), and the same expert may not grade the same coin with the same grade at two different times. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of ANACS, INS, NCI, NGC, PCGS, or any other grading service at any time in the future. Due to changing grading standards over time and to possible mishandling of coins by subsequent owners, the Auctioneer reserves the right to grade coins differently than shown on certificates from any grading service that accompany the coins. For the same reason as stated above, the Auctioneer reserves the right to grade coins differently than the grades shown in the catalog should such coins be regraded to any future auction.
- Although consensus grading is employed by grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a coin was broken out of a plastic holder and was resubmitted to another grading service or even the same service, the coin could come back a different grade.
- Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
- The degree of liquidity for certified coins will vary according to general market conditions and the particular coin involved. For some coins there may be no active market at all at certain points in time.
19. Storage of purchased coins: Purchasers are advised that certain types of plastic may react with the coins metal and may cause damage to the coins. Caution should be used to avoid storage of coins in materials that are not inert.
20. Some of the coins in this sale may have been graded by the Numismatic Certification Institute (NCI, an affiliate of the Auctioneer).

Important Note – The grading standards used by NCI generally result in a coin receiving a higher grade than the "consensus" grade that would be assigned by most dealers. The grading standards reflected in the Coin Dealer Newsletter (CDN) are stricter than NCI's and, accordingly, CDN prices in general significantly overstate the wholesale value of NCI graded coins. The Certified Coin Dealer Newsletter (CCDN), P.O. Box 11099, Torrance, CA 90510 is a better wholesale reference for NCI certified coins than the CDN.

21. Any dispute after the settlement date, January 19, 1994, is strictly between the bidder and consignor without involvement or responsibility of the Auctioneer.
- The Auctioneer or affiliates of the Auctioneer, may consign items to be sold in this auction sale and may bid on those items or any others in the sale. The Auctioneer or affiliates expressly reserve the right on its lots to modify its bids at any time based upon data made known to the Auctioneer or its affiliates.** In the event of a typographical error or attribution error, the Auctioneer, at the Auctioneer's sole discretion, correct the error orally at the sale, or, if discovered at a later date, to refund the buyer's money without further obligation. Under no circumstances shall the obligation of the Auctioneer to any bidder be in excess of the buyer's premium for any lot in dispute. If any disputes arise regarding payment, authenticity, or grading between the bidder and Auctioneer, the Auctioneer, purchaser or consignor, may submit the disputed matter to binding arbitration in accordance with the rules of the Professional Numismatists Guild, to which the bidder, by placing a bid and thereby accepting these Terms and Conditions of Sale, agrees to be bound.
22. In consideration of participation in the auction and the placing of a bid, a bidder expressly releases Auctioneer, its affiliates, the Consignor, or Owner of the Lot from any and all claim, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned grade or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Sale or otherwise, except as specifically declared herein; e.g., authenticity, typographical error, etc., and as to those matters, the rights and privileges conferred therein are strictly construed and exclusive remedy and shall be waived by Purchasers by noncompliance to its express terms.

The January 1994 Orlando Sale

A 10% Buyer's Premium is added to the Hammer Price on each lot.

There are Special Payment requirements for this Bullet Sale. Before you bid, please read Terms and Conditions of Sale, Section 5.

All certified coins are designated by the initials of the certification company listed before the grade.

HALF CENTS

PCGS 1793 VF 20. B.3, R.3. As one of the first issues of U.S. coinage, this date is quite scarce in any grade. With detail of a higher grade, the present piece has slightly dark but attractive surfaces.

- 2 PCGS 1794 VF 20. B.9, R.2. A pleasing example with medium brown color and a few minor marks which should be expected for the grade.
- 3 PCGS 1833 MS 64 Brown. A choice high grade example of this scarce copper issue. Sharply struck with glossy brown color.
- 4 PCGS 1835 MS 63 Red and Brown. A choice uncirculated example of this obsolete type coin. Mostly red with light brown overtones.
- 5 PCGS 1854 MS 64 Red and Brown. Totally original with attractive color and surfaces. Smooth medium brown color is highlighted by red around the devices.
- 6 NGC 1855 MS 65 Brown. A glossy brown gem with faint touches of red around the devices.
- 7 NGC 1855 MS 65 Red. Frosty pinkish-gold surfaces that are void of all but the most trivial carbon flecks. This issue is sometimes available in full red condition and they tend to be choice, but to have survived in gem condition is quite unusual if not rare. Population: 1 in 65, none higher.

LARGE CENTS

- 8 PCGS 1794 VF 35. S-42, R.5. The "Weak OF" variety that is diagnostically weak on that word in the reverse legend. Pleasing chocolate brown with smooth fields. Sharply struck with most detail evident and no major detractors. Scarce.
- 9 PCI 1826/5 XF 45 Corroded. N-8. The top of the 5 shows within the upper loop. Sharp definition but with a granular appearance over both sides. Scarce.
- 10 NGC 1838 MS 65 Brown. A gem example with glossy brown color and immaculate surfaces.
- 11 NGC 1852 MS 66 Brown. Completely original with glossy brown surfaces. An amazing gem example of this popular date.
- 12 PCGS 1853 MS 60 Brown. A pleasing example with medium brown color.
- 13 PCGS 1854 MS 64 Red and Brown. Nearly gem with original shades of red beneath uniform medium brown surfaces.
- 14 PCGS 1856 AU 58. Nearly uncirculated with only the lightest amount of detectable wear.

FLYING EAGLE CENTS

- 15 ANACS 1857 AU 50; and an 1859 AU 50. (Total: 2 coins)
- 16 NGC 1857 MS 65. An original gem representation of this short-lived type coin.
- 17 NGC 1858 Large Letters MS 65. A gem representative with thick satiny luster and a great strike.

PROOF FLYING EAGLE CENT

- 18 ANACS 1858 Small Letters PR 63. A choice proof with attractive mirrored fields and a tinge of pastel toning. Very nice and quite scarce as such.

INDIAN CENTS

- 19 NGC 1860 MS 65. A lustrous example of this short-lived type.
- 20 PCI 1863 MS 63; and an ANACS 1879 MS63 Red and Brown. (Total: 2 coins)
- 21 NGC 1864 Copper-Nickel MS 65. The last year of the copper-nickel type and actually the toughest date to find in MS 65 or better condition. Very pleasing with a light layer of color.
- 22 NGC 1864 Bronze MS 65 Red. A very pleasing and lustrous example of the date.
- 23 PCI 1864 L On Ribbon XF 45 Brown. Cleaned; and an ANACS 1866 MS63 Brown. (Total: 2 coins)
- 24 NGC 1865 MS 64 Red. Lovely red color. A great coin for the budget-minded collector.
- 25 PCI 1867 AU 55; and an ANACS 1868 AU55. Both are choice with glossy brown surfaces. (Total: 2 coins)
- 26 NGC 1867 MS 65 Red and Brown. Fully struck with some browning showing on the highpoints of the devices. An attractive example of this scarcer early cent. Light flyspecking on each side.
- 27 NGC 1867 MS 65 Red and Brown. A great addition to a gem set. Virtually unimprovable.
- 28 ANACS 1870 MS 61 Red and Brown. A wonderful coin for the grade.
- 29 PCI 1871 MS 63 Red and Brown. Called 75% Red by the graders at PCI.
- 30 PCGS 1871 MS 64 Red and Brown. A wonderful coin for the grade.
- 31 PCI 1872 XF 40.
- 32 NGC 1875 MS 64 Red and Brown. A pleasing coin for the grade.
- 33 PCGS 1876 MS 63 Red and Brown.
- 34 PCI 1877 XF 40. The most popular and sought after date in the series.

The January 1994 Orlando Sale

- 35 PCGS 1883 MS 64 Red and Brown. The obverse is full red while the reverse is not.
- 36 NGC 1897 MS 67 Red and Brown. A virtually flawless gem with light orange overtones.
- 37 PCGS 1902 MS 64 Red and Brown; and a 1908 MS 64 Red and Brown. (Total: 2 coins)
- 38 NGC 1907 MS 65 Red. A lovely example with only minor spotting.
- 39 NGC 1908 MS 64 Red. Nearly of MS 65 quality.
- 40 ANACS 1909 MS 65 Red; 1913 MS 64 Red and Brown; 1913 MS 64 Red; 1913-D MS 63 Red and Brown; and a 1913-S MS 62 Red and Brown, light spotting. (Total: 5 coins)
- 41 PCGS 1909-S MS 64 Red and Brown. The last date and mint in the series. A very tough date to find in mint state.

PROOF INDIAN CENTS

- 42 PCGS 1866 PR 64 Red and Brown. A fantastic coin for the grade. Worthy of a substantial premium.
- 43 PCGS 1873 PR 64 Red.
- 44 PCGS 1878 PR 64 Red. A lovely borderline gem.
- 45 PCGS 1878 PR 64 Red. Another pleasing example of the date.
- 46 PCGS 1904 PR 64 Red. A fabulous premium example of the type. This one will get a few bids.

LINCOLN CENTS

- 47 PCI 1909 MS 65 Red, PCI 1933-D cent MS 65 Red and Brown, ANACS 1883 No Cents nickel MS 64, and an NGC 1911 nickel MS 64. (Total: 4 coins)
- 48 NGC 1911-S MS 64 Red and Brown. One obverse spot at 10 o'clock.
- 49 NGC 1915 MS 64 Red. A nice example of this very popular date.
- 50 NGC 1916-D MS 64 Red and Brown. Looks like a coin of a little bit better quality than the insert states.
- 51 NGC 1917-D MS 64 Red. A popular early date from the Denver mint.
- 52 PCGS 1919 MS 68 Red. So, the 1919 is a common date, is it? Granted, there have been 229 pieces graded MS 65 Red to date, and an additional 112 in MS 66 Red, with another 5 pieces making the MS 67 Red level. However, this is the only piece to grade MS 68 Red! Still not impressed? Well, it is one of only 7 dates prior to 1955 to receive this grade. Now that should impress you. If not, look at the coin. It is easily the most eye-appealing Lincoln you will ever see. You may even have to agree that it is probably undergraded! Destined to set a record for a "common-date" Lincoln.
- 53 NGC 1919-S MS 63 Red and Brown.
- 54 NGC 1920-D MS 64 Red and Brown. Nice for the grade.
- 55 PCGS 1921 MS 65 Red. Especially pleasing obverse.

- 56 PCGS 1921-S MS 64 Red. A pleasing lot for the cent collector.
- 57 PCGS 1921-S MS 64 Red. A pleasing example for the grade.
- 58 PCGS 1921-S MS 64 Red. The last of three opportunities to purchase this date in this grade.
- 59 NGC 1923-S MS 64 Brown. Brown? I'd love to put a set of these away if everybody would call coins like this brown. Strike is soft, but above average. Sure to bring a healthy premium for the color.
- 60 PCGS 1923-S MS 64 Red. Although the strike is somewhat soft, it is far above average for the date. Another opportunity for the Lincoln collector.
- 61 NGC 1925-S MS 65 Red and Brown. Semi-prooflike fields with a much above average strike. A very challenging date to obtain in this state of preservation. If you collect this series, you know what an opportunity this is.
- 62 ANACS 1944-D/S Die 2 MS 65 Red. The more common and less popular of the two varieties. Nevertheless, it is an overmintmark and it is scarce.
- 63 PCGS 1972/72 Doubled Die MS 65 Red. Did you go through bags of cents in 1972 looking for these? Yea, so did I.
- 64 PCGS 1922 No D Strong Reverse VF 30. Die Pair 2, the most desirable of the three die varieties. A trifle soft on the highpoints of the obverse, as is normal, with full lines on the wheat stalks. Trends \$500 in VF 20, \$1,900 in XF 40.

PROOF LINCOLN CENTS

- 65 NGC 1940 Proof Set. As follows: cent PR 64 Red, nickel PR 64, dime PR 67, quarter PR 66, and half dollar PR 65. A pleasing original set. (Total: 5 coins)
- 66 PCGS 1940 PR 65 Red; and a 1941 PR 65 Red. (Total: 2 coins)
- 67 NGC 1950 PR 67 Red. Spotless and pleasing.

TWO-CENT PIECES

- 68 NGC 1864 Small Motto MS 65 Brown. The strike is deep and bold and original red can be seen about the devices. One of only 5 to be graded as such by NGC with none finer in the Brown category.
- 69 Hallmark 1865 MS 63 Red and Brown., PCGS 1865 three-cent nickel MS 62, and an NGC 1861 half dime MS 61. (Total: 3 coins)
- 70 PCI 1868 AU 50 Brown, and a 1914 Barber dime AU 55. (Total: 2 coins)
- 71 NGC 1868 MS 65 Brown. Although the insert says brown, don't expect to see a brown coin. This lot has multicolored toning that is actually very appealing. Sea-green, violet and blue dance around patches of red. Sure to bring a premium for the color.
- 72 PCGS 1871 MS 63 Brown. Really more towards a red and brown rather than just brown. A much better date.
- 73 PCGS 1871 MS 64 Brown. As nice as you can expect to find. Rich brown color with hints of red on the reverse.

The January 1994 Orlando Sale

- 74 PCGS 1871 MS 63 Red. It's unusual to find a full red copper coin grading at this level. This is a most pleasing example and will satisfy the new owner.

PROOF TWO-CENT PIECES

- 75 PCGS 1865 PR 64 Red. A very difficult issue to find in proof. From an original mintage of only 500 pieces. A lovely piece with rich color.
- 76 PCGS 1872 PR 65 Red and Brown. A very nice example of this popular date. Two-cent pieces seem as though they have never gotten their proper respect in the numismatic community.
- 77 PCGS 1873 Closed 3 PR 65 Red. Pumpkin-orange in color. A nice example of this popular issue.

THREE-CENT SILVER

- 78 NGC 1851-O MS 64. A lovely, satiny example of this popular issue. The only mintmarked three-cent silver.
- 79 PCGS 1853 MS 63. Light golden color. Downgraded by a few planchet streaks caused by impurities in the metal. The nicest looking MS 63 you'll see.
- 80 PCGS 1854 MS 66. The first year of the Type Two variety and certainly one of the finest available. Typical clash marks, but lovely color, luster, strike, and quality. One of only 4 to receive this grade with none finer. Easily worth a five-figure bid.
- 81 PCGS 1862 MS 63. An affordable and pleasing type coin.
- 82 NGC 1862 MS 64. Deeply toned in a blend of golden-violet and bluish-green.
- 83 PCGS 1863 MS 66. A stunning prooflike example of this rare issue from an original mintage of only 21,000 pieces. Although prooflike, there is no doubt about the business strike nature of the coin. The dies are clashed and enough mint frost remains to quell the fears of any doubters. One of only 5 to grade at this level with none higher.

PROOF THREE-CENT SILVER

- 84 PCGS 1860 PR 65. Deep violet and blue toning adorn this gem. This is surprisingly the only PR 65 to be graded by PCGS and none have graded higher. Although the original mintage was 1,000 pieces, few were preserved. A special opportunity to salt away a really scarce coin.
- 85 PCGS 1861 PR 65. Lovely toning. These type coins have become very affordable in this market.
- 86 NGC 1864 PR 64. Richly toned and nearly of gem quality. Only 470 proofs were struck in this Civil War year.
- 87 NGC 1867 PR 64. Spectacular emerald-green obverse color, with the reverse toned in mottled gray-violet shades.
- 88 NGC 1870 PR 66. Gorgeous electric-blue peripheries with deep russet and reddish-gold centers.

- 89 PCGS 1873 PR 62. Always popular due to the proof-only nature of the strikings. Light gold toning covers this very affordable example.
- 90 PCGS 1873 PR 65. One tiny lintmark on the reverse to the left of the III. Lovely original color.
- 91 NGC 1873 PR 65. A gem example of this final year, proof-only date. Both sides are splashed in orange, rose, and blue-green iridescence.

THREE-CENT NICKELS

- 92 PCI 1865 MS 62, NGC 1913 Type Two nickel MS 63, PCI 1914-S nickel AU 55, and an ANACS 1913 dime MS 61. (Total: 4 coins)
- 93 PCI 1865 MS 65. Well struck with light golden toning.
- 94 PCGS 1876 MS 66. According to the December Population Report, this is the only MS 66 example available and none have been graded higher. Throughout this sale you will be presented with a number of opportunities to set aside some of the nicest coins on the market. Go ahead and stretch for some of these as who knows when they may be available again.
- 95 PCGS 1879 MS 66. A lovely, virtually untuned example of this very scarce date. Sure to please the most finicky collector.

PROOF THREE-CENT NICKELS

- 96 NGC 1866 PR 66. The early years of this type have always been the most difficult to obtain in proof condition. They are even tougher in this lofty state of preservation. Deep golden color.
- 97 PCGS 1867 PR 65. From an original mintage of only 625 pieces. Lightly toned and arguably much nicer than the grade indicates.
- 98 PCGS 1870 PR 65. Pleasing for the type.
- 99 NGC 1876 PR 65. Deeply mirrored.
- 100 PCGS 1879 PR 66. Lovely and problem-free.
- 101 PCGS 1882 PR 64. Boy, would I like to buy this lot for PR 64 money. Good luck.
- 102 PCGS 1882 PR 66. One of the most available of all three-cent nickels in this state of preservation and as such perfect for type. A premium example.

SHIELD NICKELS

- 103 ANACS 1866 Rays MS 62. Multiple die cracks and typical soft strike. The original color adds a great deal to the desirability of the coin.
- 104 PCGS 1873 MS 64. A very lustrous example.

PROOF SHIELD NICKELS

- 105 PCGS 1877 PR 64. This date has been eagerly sought by collectors for years. Recent population data indicates that

The January 1994 Orlando Sale

many coins in the series are actually tougher to obtain in this condition than the 1877. Has this diminished the demand? Of course not, this is a proof-only year and the magic of 1877 has a draw and appeal unlike any other date. A pleasing high-end example of the date.

- 106 PCGS 1878 PR 66. Another popular proof-only issue. Although not with the appeal of the 1877, this date is eagerly sought by the collector community. A more pleasing example would be tough to come by. Light gold color.
- 107 PCGS 1879/8 PR 66. Easily one of the best preserved dates in the series. Deep mirrors with virtually perfect fields and just a hint of color.
- 108 NGC 1883 PR 65. Very pleasing for the grade.

LIBERTY NICKELS

- 109 NGC 1883 No Cents MS 65. Weakly struck about the stars and the left ear of corn.
- 110 NGC 1883 No Cents MS 65. Light golden color.
- 111 PCGS 1894 MS 65. One of only 20 pieces to grade at this level and it's called a common date. Think about that when you place your bid.
- 112 NGC 1897 MS 66. Light golden toning. One of three to be graded as such by NGC with PCGS still not having graded one at this level.
- 113 PCI 1901 MS 63, and an ANACS 1910 MS 61. (Total: 2 coins)
- 114 PCGS 1910 MS 66. A lightly toned, pleasing gem.
- 115 NGC 1912-S MS 64. Brownish-gold toning. A borderline gem.
- 116 NGC 1912-S MS 65. A very pleasing example of a date which seldom has positive qualities. Lightly toned with a couple of minor marks.

PROOF LIBERTY NICKELS

- 117 NGC 1883 No Cents PR 64. Deeply mirrored fields. A minor planchet flake near the 1 in the date prevents an even higher grade.
- 118 NGC 1897 PR 65. Lightly toned and very pleasing.
- 119 PCGS 1900 PR 65. A pleasing example and very affordable in today's market.
- 120 PCGS 1900 PR 66. Deep mirrors over flawless surfaces.
- 121 NGC 1902 PR 65. Very flashy.

BUFFALO NICKELS

- 122 NGC 1913 Type One MS 66. Light blue and gold toning. A lovely example.
- 123 PCGS 1913-D Type One MS 66. A pleasing coin in one of the most popular series.
- 124 PCGS 1916-D MS 64. A gem obverse with a reverse nearly so. Sure to bring a premium price.

- 125 PCI 1918/7-D XF 45 Altered Surfaces. This piece was either buried or acid treated as the surfaces are granular throughout, with light golden-rose accents. There is certainly nothing wrong or indistinct about the detail, it is quite sharp with the underdigit plainly visible to the naked eye.
- 126 PCGS 1921 MS 64. A brilliant, well-struck Buff.
- 127 PCGS 1925-D MS 61. As weak a strike as you may ever find in a holder. This date is notorious for their weak strikes. Technically, the coin is nicer than the grade would indicate, but the strike is just too soft to justify a higher grade.
- 128 PCGS 1925-S MS 64. Another date well-known for the soft strikes. This example is far above average for the date and also has a touch of golden color. A very suitable lot for the date collector.
- 129 PCGS 1928-S MS 64. Light golden color.
- 130 PCGS 1929-S MS 65. Lustrous gold color.
- 131 NGC 1937-D Three-Legged MS 62. Brownish toning over typically lackluster surfaces.

PROOF BUFFALO NICKELS

- 132 NGC 1913 Type One PR 65. A very popular one year type coin.
- 133 NGC 1913 Type Two PR 65. Light, golden toned example. From an original mintage of 1,514 pieces.
- 134 NGC 1936 Type Two PR 66. The much more popular brilliant variety. This lot has added appeal with the lovely toning it displays. Sure to please even the fussiest buyer.

PROOF JEFFERSON NICKEL

- 135 PCGS 1942-P Type Two PR 67. A pleasing, brilliant example of this one year type.

BUST HALF DIMES

- 136 PCGS 1829 MS 64. V-6, R.2. Shimmering semi-prooflike fields cause this coin to have a jewel-like appearance. A touch of light color on the reverse.
- 137 PCGS 1830 half dime XF 40; 1900-S dime AU 53; and a 1906 quarter AU 53, all lightly cleaned. (Total: 3 coins)
- 138 NGC 1830 MS 64. V-10, R.6. A satiny borderline gem with deeper color about the devices.
- 139 PCGS 1831 AU 55. V-1, R.1. A lightly circulated, thus affordable, example of this short-lived type.
- 140 PCGS 1831 MS 61. V-1, R.1. Another affordable example of a type coin which is over 160 years old.
- 141 ANACS 1834 MS 63. V-5b, R.2. Deep reddish-gold toning with the highpoints fluorescent blue. No, I don't know how.
- 142 PCGS 1837 Small 5C MS 64. V-2, R.3. Virtually untuned with satiny fields.

The January 1994 Orlando Sale

SEATED HALF DIMES

- 143 NGC 1837 No Stars MS 63. Reddish-gold obverse with a virtually color-free reverse.
- 144 NGC 1837 No Stars MS 64. Just a hint of golden color.
- 145 PCGS 1838 No Drapery MS 63. Light russet color about the peripheries.
- 146 PCGS 1839 No Drapery MS 63. Deep violet obverse while the reverse displays just a touch of golden color.
- 147 ANACS 1841-O MS 62. Light peripheral toning accents the present example of this scarce New Orleans issue. Very difficult to locate in high grades.
- 148 NGC 1847 MS 64. A lovely example with surfaces displaying a great deal of prooflike reflectivity. Fully brilliant and sure to please the new owner.
- 149 PCGS 1850 MS 65. A shimmering jewel worthy of the finest gem type set.
- 150 PCGS 1851 MS 62. Mottled gray-gold toning with steel-blue accents most noticeable on the reverse.
- 151 PCGS 1854 Arrows MS 64. Violet-red toning over virtually flawless surfaces. Struck from heavily clashed dies.
- 152 NGC 1857 MS 64. Light brown toning with touches of gold.
- 153 NGC 1857 MS 64. A lovely, fully brilliant example which is just a touch soft on the head.
- 154 PCGS 1858 MS 65. A lovely shimmering example of one of the most common With Stars type coins. A pleasing addition to any collection.
- 155 PCGS 1863 MS 67. A fabulous and virtually unimprovable example of this little type coin. Grades at this level may be commonplace in Kennedy halves and like dollars, but in older type series they are truly scarce. This lovely example displays shimmering prooflike fields and has just a touch of golden color. Available for a mere fraction of its former high. For the finest type set.
- 156 PCGS 1871 MS 62. Pleasing for the grade with russet color.
- 157 PCGS 1872 MS 66. A glimmering semi-prooflike gem. Another opportunity to set aside a lovely type coin.
- 158 NGC 1872-S MS 65. Mintmark Above Bow. Lightly toned.
- 159 NGC 1873-S MS 66. A pleasing example of the last collectible date in the series. The toning enthusiast will love this coin with its multicolored surfaces. The toning is mainly in hues of gold and blue. The surfaces are clean and problem-free.

PROOF SEATED HALF DIMES

- 160 PCGS 1860 PR 64. Deep shimmering mirrors with a touch of golden color.
- 161 NGC 1865 PR 65. Deep gold color. From an original mintage of only 500 pieces.
- 162 NGC 1873 PR 65. A lovely russet and gold gem.

BUST DIME

- 163 NGC 1830/29 MS 63. JR-4, R.2. Softly defined on the reverse and showing deep multicolored toning over both sides.

SEATED DIMES

- 164 NGC 1838-O No Stars AU 58. Deep gray and yellow-gold toning atop razor sharp surfaces. The 1838-O is a scarce date that has several other things going for it as well. It is one of just two No Stars issues and the first New Orleans mint issue, being struck in the same year as the famous and rare 1838-O half dollar.
- 165 NGC 1851 MS 63. Lightly toned with gold and brown peripheries. The reverse has deeper russet and golden color.
- 166 NGC 1853 Arrows MS 65. One of the most popular type varieties in the series. Lightly toned with mostly brilliant surfaces.
- 167 PCGS 1854 Arrows MS 62. Very pleasing for the grade and certain to bring over MS 62 money.
- 168 PCGS 1857 MS 64. Sea-green highlights on the obverse with the reverse more evenly toned in reddish-gold hues.
- 169 PCGS 1872-S AU 53. A lightly circulated example of this popular scarce date.
- 170 PCGS 1878 MS 64. A better date in a nice state of preservation. The reverse is a blazing, untuned gem. The obverse is lightly toned. For the date collector or investor who appreciates the scarcity of this offering.
- 171 NGC 1882 MS 63. Lightly toned.
- 172 NCI 1885 MS 65. To be more precise, graded as MS 65/65. Concentric shades of orange, rose, and blue on the obverse while the reverse is framed in golden-orange toning.

PROOF SEATED DIMES

- 173 PCGS 1863 PR 66. A stunning superb gem with a light golden obverse and a reverse exhibiting light violet color within the gold. Added pressure as a date due to the scarcity of mint state examples. Sure to please.
- 174 NGC 1866 PR 65. Lovely deep violet-gold toning over virtually flawless surfaces.
- 175 PCGS 1868 PR 65. Untoned with deep mirrors and a near-cameo look.
- 176 PCGS 1870 PR 64. Deep violet-blue and gold toning.
- 177 PCGS 1874 Arrows PR 64. A popular issue with those pointed sticks hanging out at the date. Deeply toned on the reverse while the obverse has a touch of sea-green about the borders.
- 178 PCGS 1883 PR 63. Toned.

BARBER DIMES

The January 1994 Orlando Sale

- 179 **PCGS 1892-O MS 65.** A much scarcer date exhibiting gentle original color.
- 180 **NGC 1896-S MS 65.** A very pleasing example of this popular issue. Very difficult to obtain in MS 65 or better condition. This example displays light russet color about the devices on the obverse with a more uniform coverage on the reverse.
- 181 **NGC 1899-S MS 66.** Deeply toned in mottled shades of blue, orange, and steely-gray, with intricately detailed underlying surfaces. The '99-S is one of the most elusive Barber dimes in any mint state grade, much less a superb gem. Population: 1 in 66, none higher.
- 182 **NGC 1900 MS 65.** Sea-green and gold toning adorn this gem.
- 183 **PCGS 1911-D MS 65.** Light golden toning.
- 184 **NGC 1913 MS 66.** True gem Barber coinage is very difficult to locate. Mostly brilliant with just a touch of golden color.
- 185 **ANACS 1914 Broadstruck MS 62.** A pleasing example of this error.
- 186 **NGC 1916 MS 64.** Lustrous with just a touch of light gold color.

PROOF BARBER DIME

- 187 **PCGS 1895 PR 64.** A blazing cameo with a couple of small spots on Liberty's neck.

MERCURY DIMES

- 188 **PCGS 1918-D MS 62.** A lovely inexpensive example of this slightly better early date. Lightly toned.
- 189 **NGC 1919 MS 65 Full Bands.** A mostly brilliant example of this better date.
- 190 **PCGS 1920-D MS 65.** Pleasing and vibrant. A great addition to that set.
- 191 **PCGS 1921 MS 63 Full Bands.** One of the real keys to this fascinating set. A fine addition for those not wishing to spend \$3,000+ but are still looking for an attractive BU coin.
- 192 **PCGS 1924-D MS 64 Full Bands.** A light violet-gold layer of toning covers this borderline gem. A lovely example of this difficult issue. The bands are deeply separated.
- 193 **PCGS 1924-D MS 65 Full Bands.** A touch of light golden color. A very difficult issue to obtain in this state of preservation.
- 194 **PCGS 1925 MS 65 Full Bands.**
- 195 **NGC 1925-D MS 64.** Light toning over problem-free surfaces. The bands are well-struck, but not full. A pleasing lot.
- 196 **PCGS 1926-S MS 65 Full Bands.** Another very pleasing example of a scarcer date Mercury dime. This sale offers a number of opportunities to set aside a better date in this series. Don't pass up this chance.
- 197 **PCGS 1928-S dime MS 60, and a 1914-D quarter AU 58 (Total: 2 coins)**

- 198 **PCGS 1929 MS 64 Full Bands, 1929-D dime MS 64 Full Bands, and 1926-D quarter MS 62. (Total: 3 coins)**

PROOF MERCURY DIMES

- 199 **PCGS 1936 PR 63.** A bright and affordable example of this popular date.
- 200 **PCGS 1936 PR 64.** Just a touch of light color.
- 201 **NGC 1939 PR 67.** The first of an amazing run of 5 pieces to attain this grade.
- 202 **PCGS 1939 PR 67.** Your second opportunity to salt one of these away in this lofty condition.
- 203 **PCGS 1939 PR 67.** A lovely example of this popular type. At this grade level and with prices where they are today, these lots seem to be some of the best value buys in this sale.
- 204 **NGC 1939 PR 67.** Another pleasing example of this date in superb condition. This one is lightly toned.
- 205 **NGC 1939 PR 67.** A final opportunity to buy one of these superb gems. An essentially flawless specimen, outlined on the obverse in multicolored toning.

TWENTY-CENT PIECES

- 206 **NGC 1875-S MS 63.** Russet toning with pleasing underlying luster. A nice type coin.
- 207 **NGC 1875-S MS 63.** Deep coloration in russet and deep blue hues. Well struck for the date with underlying luster evident.

PROOF TWENTY-CENT PIECES

- 208 **PCGS 1875 PR 64.** A light golden layer of color appears to hover over the watery fields.
- 209 **NGC 1877 PR 65.** Deep electric blue obverse with hints of violet and red on the reverse. An outstanding, colorful example of the most popular date in the series. The perfect coin for the collector or investor.
- 210 **PCGS 1878 PR 65.** A very scarce and popular example of this proof-only date. From an original mintage of 600 pieces. Lightly toned and pleasing.

BUST QUARTER

- 211 **PCGS 1837 MS 64.** A frosty golden-hued specimen, boldly struck in most areas and just a bit of scuffiness above the eagle from gem quality. As a date, the 1837 is not nearly as obtainable as a couple other Small Size Bust quarter issues in MS 64 condition. Population: 6 in 64, 9 higher.

SEATED QUARTERS

- 212 **NGC 1844 MS 65.** BU No Motto Seated coinage is scarce and desirable. Gem No Motto coinage is downright rare, especially these early dates from the '40s. This lovely gem has toned in hues of russet and blue.
- 213 **NGC 1846 MS 64.** Mostly brilliant with a touch of golden color.

The January 1994 Orlando Sale

PROOF BARBER QUARTER

- 214 NGC 1861 MS 64. A pleasing example of one of the most common dates of the type.
- 215 NGC 1876-S MS 64. Satiny and toned in original golden-gray hues with deeper steel-violet shades in the protected areas.
- 216 PCGS 1877 MS 66. A blazing, satiny gem example of this popular date. We are fortunate to offer so many nice examples of type coins in this sale, and you are fortunate to have this opportunity to bid on them.
- 217 NGC 1880 MS 65. A lovely example of this low mintage date. Quarters and halves from the 1880s have been a favorite among collectors for decades. This splendid example has semi-prooflike surfaces and a touch of golden color. Very pleasing.
- 218 PCGS 1882 MS 65. Deep golden-red toning adorns this popular date. Yet another opportunity to salt away a very popular coin at today's attractive levels.

PROOF SEATED QUARTERS

- 219 NGC 1858 PR 64. A truly lovely example of this very difficult issue. Considered to be the first collectible year in the series adds additional pressure to the price. Deeply toned over deeply mirrored fields.
- 220 ANACS 1862 PR 65. The mirrors on this gem example are unfathomably deep and are framed on both sides in antique-gold and blue-green toning.
- 221 PCGS 1864 PR 55. An obvious proof that did partake in a little commerce, however brief. One of just 470 pieces minted.
- 222 PCGS 1867 PR 65. Lovely iridescent green, blue, red, and gold toning. Much deeper on the reverse. A nice type coin.
- 223 PCGS 1873 Arrows PR 64. Mostly brilliant with hints of gold toning beginning to form. A popular type coin.
- 224 PCGS 1884 PR 64. Deep violet-gold toning. A fabulous example for the grade.
- 225 NGC 1886 PR 63. Stark cameo contrast with a streak of violet color across the reverse.

BARBER QUARTERS

- 226 PCGS 1892 MS 64. A pleasing example of this very affordable type coin.
- 227 NGC 1892 MS 65. Mostly brilliant.
- 228 PCGS 1909 MS 64. A well frosted example, toned here and there in attractive golden hues.
- 229 NGC 1914 MS 65. A touch of light sea-green color mixed with a light golden tone. The reverse is mostly brilliant and shows good luster.
- 230 NGC 1915 MS 65. Light yellow and gold toning.
- 231 PCGS 1916-D MS 65. Shimmering, brilliant surfaces. Not a hint of color.

- 232 PCGS 1906 PR 64. Full proof brilliance with suggestions of golden toning on either side.

STANDING LIBERTY QUARTERS

- 233 NGC 1916 MS 64. Wholly original surfaces that exhibit deep russet toning in the protected areas. The 1916 quarter, struck in a transitional year, is one of the most famous 20th century silver rarities, one of only 52,000 pieces minted. Population: 24 in 64, 13 higher.
- 234 NGC 1917 Type One MS 65. Very light golden toning.
- 235 PCGS 1917 Type One MS 65 Full Head. Golden-brown toning appears about the right obverse border and more evenly frames the reverse.
- 236 PCGS 1917-D Type One MS 64 Full Head. A near gem overlaid in delicate golden-rose patina.
- 237 PCGS 1917 Type Two MS 63 Full Head. Brilliant and lustrous.
- 238 ANACS 1918/7-S VG 8. A medium-gray example of this elusive overdate, free of problems but somewhat weak in the date as are all well circulated Standing quarters until the year 1925.
- 239 NGC 1919-D MS 65. A pleasing example of this better date. Lightly toned.
- 240 NGC 1920 MS 66. Deep satiny brilliance and an almost total lack of surface marks. Population: 11 in 66, none higher.
- 241 PCGS 1923 MS 66. Housed in the old style PCGS holder. A shimmering jewel.
- 242 PCGS 1924-S MS 64. Bright and frosty, with considerably above-average sharpness on Liberty's head and shield. A scarcer issue, hardly ever seen finer.
- 243 PCGS 1926-S MS 66. Pristine surfaces that exude as much frostiness and originality as we can recall seeing on this tougher S-mint issue. The obverse displays a few light specks of russet toning above the date. Population: 6 in 66, none higher.
- 244 PCGS 1927 MS 63 Full Head. Light golden-brown toning.
- 245 PCGS 1927-D MS 66. Just a superlative example of this scarcer issue, with the obverse being essentially brilliant and the reverse accented in splendid orange-gold iridescence. Population: 4 in 66, none higher.
- 246 PCGS 1929 MS 62; PCI 1930-S MS 62, 95 pct. white; and a PCI 1942-S/S MS 64, 90 pct. white. (Total: 3 coins)
- 247 PCGS 1929 MS 65. Highly lustrous with nearly full head definition and just a suggestion of golden obverse color.
- 248 NGC 1929 MS 66. Pale lilac and golden toning overlays peerless surfaces. The strike is very close to full. Population: 3 in 66, 1 higher.
- 249 PCGS 1929 MS 64 Full Head. A borderline gem. Light golden toning.

The January 1994 Orlando Sale

- 250 PCGS 1929-D MS 63 Full Head. A bright, golden-toned example. Only about ten percent of the 1929-D mint state population comes with a full head.
- 251 NGC 1929-S MS 67. A stunning example of one of the most popular type coins ever made. Coinage of the '20s and '30s is looked upon by many today as the glory years of U.S. coin design. At any rate, this particular coin exhibits lovely light gold and russet color. We cannot imagine a cleaner, more pleasing example for the date. Although the head is not full, it is well struck and no hints of "mushiness" are evident. For the finest collection.
- 252 PCGS 1929-S MS 65 Full Head. Fully brilliant obverse with light gold on the reverse.
- 253 PCGS 1930 MS 64 Full Head. Specks of reddish-gold toning about the obverse edge.
- 254 PCGS 1930 MS 64 Full Head. Frosty with delicate golden highlights on the reverse.
- 255 PCI 1930 MS 66 Full Head. Russet toning on the obverse with a mostly brilliant reverse.
- 256 PCGS 1930-S MS 66. Vibrant white example with a 99.9999% head.

WASHINGTON QUARTERS

- 257 PCGS 1932-S MS 63. A traditional key date Washington, with bright obverse luster and a dash of golden color above and to the right of the portrait.
- 258 PCGS 1932-S MS 64. Very light coloration on this popular date.
- 259 NGC 1937 MS 66, yellow-gold and rose obverse toning; and a PCGS 1939 MS 65, frosty and original. (Total: 2 coins)
- 260 NGC 1937-S MS 66. Original and satiny, with a near absence of marks.

PROOF WASHINGTON QUARTERS

- 261 PCGS 1936 PR 62. Moderately hairlined, but with all of the watery brilliance intact for this first year proof.
- 262 NGC 1938 PR 67.
- 263 PCGS 1939 PR 67. Light, original peripheral color.

EARLY HALF DOLLARS

- 264 PCGS 1805 MS 60. O-106, R.3. Generally sharp with gray-gold obverse toning and more of a golden-orange tint on the reverse. There are numerous adjustment marks concealed within Liberty's hair and a few to the left in a couple of stars. Rare in mint state. Population: 1 in 60, none higher.
- 265 PCGS 1807 Draped Bust AU 55. O-103a, R.3. A decent strike for this later die state, silvery-gray in color with bluish-steel highlights on Liberty's portrait.

BUST HALF DOLLARS

- 266 PCI 1812 XF 40, O-105a, R.2; 1856-O VF 35, repunched date; and an 1872 XF 45, scarcer issue. (Total: 3 coins)
- 267 NGC 1812 AU 55. O-104, R.1. A splash of subtle pinkish-gold color is seen across the obverse. Partially rotated reverse.
- 268 NGC 1812 AU 58. O-102, R.2. Most of the bright silvery luster remains and there is a splash of golden-brown color on each side as well as over the highpoints of the obverse.
- 269 PCGS 1827 MS 60. O-106, R.2. Square Base 2. Very well struck on the central devices, with a hint of antique-gold toning across the obverse.
- 270 PCGS 1828 AU 58. O-115, R.2. Square Base 2. Small 8s. Silvery-gray with a touch of golden color on the reverse.
- 271 PCGS 1829 AU 58. O-115, R.1. Sharp and brilliant.
- 272 NGC 1830 AU 50. Large 0. O-120, R.1. Original golden-gray surfaces.
- 273 PCGS 1831 MS 63. O-109, R.1. Quite frosty and framed in golden toning.
- 274 PCGS 1834 MS 62. O-112, R.3. Lustrous with even gray-rose toning, and a couple of darker spots by star 6.
- 275 PCGS 1835 MS 62. O-103, R.2. Deep gray-golden toning, a trifle soft in the centers.
- 276 NGC 1836 Reeded Edge XF 40. One of the most popular and highly sought after half dollars ever minted. The allure of the '36 Reeded Edge has excited even the most casual collector. This example has a good look with its uniform color and even wear. No serious marks are noted. A lot to be eagerly sought by more than one collector.
- 277 NGC 1837 Reeded Edge MS 64. An intensely lustrous specimen with occasional reddish-gold highlights. The strike is quite bold in the centers and only on a few of the stars and eagle's talons does flatness show. Outstanding quality for this short-lived type coin.

SEATED HALF DOLLARS

- 278 PCGS 1843 MS 63. Boldly struck and exhibiting delicate yellow-gold peripheral highlights. Despite a substantial mintage, the 1843 is scarce in mint state. Population: 6 in 63, 4 higher.
- 279 PCGS 1853 Arrows and Rays MS 63. An essentially untuned, well frosted specimen. Select quality for this popular one-year type.
- 280 NGC 1854 Arrows MS 64. Lightly toned in golden and green hues. A very popular type coin.
- 281 PCGS 1855-O Arrows AU 55. Glossy with steely-gold and blue overtones.
- 282 NGC 1860-O MS 64. One of the more available issues of the No Motto type.
- 283 NGC 1874 Arrows MS 61. Deep brown toning.
- 284 PCGS 1875-CC MS 66. A fantastic example of this very scarce Carson City issue. This is easily the finest graded example to date, and it is hard to imagine that a more pleasing example could exist. A light layer of golden color adds to the

The January 1994 Orlando Sale

overall appeal of this lovely coin. One of the highlights of this illustrious sale.

- 285 PCGS 1875-S MS 64. Lightly toned and housed in the old smaller PCGS holder.
- 286 PCGS 1878 MS 63. Although not technically from the low mintage decade from 1879-1889, the 1878 boasts a certification population lower than most of the better dates from that era. A good opportunity to buy this underappreciated date.
- 287 PCGS 1882 MS 65. One of only 4,400 business strikes for the year. A more lovely example can only be imagined. Lovely sea-green and violet shades adorn semi-prooflike surfaces. For the finest collection.
- 288 PCGS 1886 MS 64. Prooflike fields, but unquestionably a business strike. A most pleasing example for the date.

PROOF SEATED HALF DOLLARS

- 289 NGC 1874 Arrows PR 64. Light violet toning. A popular and pleasing type coin.
- 290 NGC 1883 PR 64. A dazzling two-toned specimen that exhibits stark field to device contrast and only a whisper of golden peripheral color.
- 291 PCGS 1884 PR 64. Toned a bluish-green over both sides, with a splash of milky golden-violet patina across the right side of the obverse. Popular low total mintage date.

BARBER HALF DOLLARS

- 292 PCGS 1892-O MS 61. Scarce first year issue, one of fewer than 400,000 pieces struck at the New Orleans mint. Well defined with specks of russet toning about the devices.
- 293 PCGS 1899 AU 55. Fully struck with a splash of toning on the reverse.
- 294 PCGS 1910 MS 66. The finest example of this date to be certified, and in our opinion it is a premium example for the grade. Mostly brilliant surfaces with a patch of russet color on the neck.
- 295 PCGS 1911 MS 62. Silvery-gray, satiny surfaces, free of appreciable marks.
- 296 PCGS 1912 MS 64. Mostly brilliant and well-struck.

PROOF BARBER HALF DOLLARS

- 297 PCGS 1892 PR 63. Both sides display full watery brilliance under milky patina.
- 298 PCGS 1893 PR 64. Golden-toned obverse with milky lilac patina intermixed on the reverse. Both obverse and reverse display noticeable contrast.
- 299 PCGS 1894 PR 64. A stunning coin for the grade.
- 300 PCGS 1903 PR 64. Interesting toning on the obverse of honey-gold, sea-green, and violet. The reverse is mostly sea-green and blue.

- 301 PCGS 1913 PR 64. Fully brilliant.

WALKING LIBERTY HALF DOLLARS

- 302 NGC 1917 MS 65. Deep reddish-gold color. A very pleasing example of this early issue.
- 303 NGC 1917-D Obverse MS 62. Well defined under a hint of milky gray-violet patina.
- 304 PCGS 1917-D Obverse MS 63. Fully brilliant without a trace of color.
- 305 PCGS 1917-D Obverse MS 64. Intricately detailed and displaying a bright, satiny luster. Untoned except for a small patch of color in the right obverse field.
- 306 PCGS 1917-D Reverse MS 64. A very scarce early Walker in such well preserved condition. Bright, untoned obverse with a dash of golden-gray patina across the reverse. Population: 32 in 64, 9 higher.
- 307 PCGS 1917-S Reverse MS 63. Generally mark-free with the reverse dulled by a milky steel-violet patina.
- 308 NGC 1920-S MS 63. Typical strike with abundant luster. Affordable in this condition and suitable for a nice BU set.
- 309 PCGS 1921-S AU 50. Typical strike with original golden color. Most high-end circulated examples of this date have been cleaned to varying degrees. This lot is a pleasant exception to that rule. This coin actually can lay claim to a higher grade due to the exceptional luster which it exhibits. For the collector who has spent years looking for "just the right coin" to fill out their set.
- 310 PCGS 1929-D MS 65. Brilliant, well-struck, and pleasing.
- 311 PCGS 1935-S MS 65. Fully brilliant and well-struck.
- 312 PCGS 1939-S MS 65. Essentially brilliant with shimmering luster.
- 313 PCGS A short set (1941-1947) of Walking Liberty half dollars including all dates and mintmarks, each grading MS 64. (Total: 20 coins)
- 314 PCGS 1941-S MS 64. Lustrous with a better-than-average strike.
- 315 PCGS 1941-S MS 64, ten pieces, all fully lustrous, well struck examples of this popular "short set" key. (Total: 10 coins)
- 316 PCGS 1941-S MS 65. Everything about this coin is above average for the date—strike, luster, and appeal. Sure to bring a premium bid.
- 317 PCGS 1941-S MS 65. One of the nicest coins of this date that you will find still in an MS 65 holder. There is a touch of color about the peripheries. The strike is far above average. Choice and pleasing.
- 318 PCGS 1942-S MS 65. Fully brilliant and exhibiting blazing luster.
- 319 PCI 1942-S MS 65. The holder notes that the coin is 50% toned. How do they come up with those percentages?

The January 1994 Orlando Sale

320 PCGS 1942-S MS 65. Booming luster with a touch of russet color. An exceptional coin for the grade.

PROOF WALKING LIBERTY HALF DOLLARS

321 PCGS 1936 PR 63. Scarce first year Walking Liberty issue and quite pleasing for this modest grade.

322 PCGS 1937 PR 63. Bright, untuned surfaces.

323 PCGS 1938 PR 64. Light gray patina.

324 PCGS 1938 PR 66. A flashy, untuned, and extremely well preserved specimen.

325 NGC 1938 PR 67. A lovely, original example of this popular type.

326 NGC 1939 PR 65. Both sides are toned in milky silvery-gray patina.

327 NGC 1939 PR 65. Blemish-free surfaces with light, original toning about the obverse periphery.

328 PCGS 1940 PR 63. Speckled, original patina over both sides.

329 PCGS 1940 PR 66. Light golden color.

330 PCGS 1940 PR 68. A touch of deep golden-brown toning arcs around the obverse rim from 6 o'clock to 9 o'clock and the reverse from 6 o'clock to 12 o'clock. An outstanding example of the type. Amazingly, this is the most "common" Walker in PR 68 with 9 other examples being graded. Imagine having a population of 10 and being called common.

FRANKLIN HALF DOLLARS

331 PCGS A complete set of Franklin half dollars, all grading MS 64. Most are of near gem quality, submitted with the intention of getting an MS 65 graded coin back. (Total: 35 coins)

332 NGC 1963-D MS 66. An incredibly toned specimen, partially overlaid on both obverse and reverse in an array of colorful iridescent hues. Population: 14 in 66, none higher.

PROOF FRANKLIN HALF DOLLARS

333 PCGS 1950 PR 64. A shimmering borderline gem.

334 NGC 1950 PR 66. As one would expect, this is the toughest date in the series in this grade.

EARLY DOLLARS

335 NGC 1795 Flowing Hair VF 20. B-7. Medium-gray color with subtle blue and gold accents. Faint adjustment marks are seen across Liberty's middle curls.

336 PCI 1795 Flowing Hair VF 35 Scratched. B-1. Original charcoal-gray color, lighter on the devices. There is a crisscrossing scratch, as mentioned, on the eagle's breast and extending into the fields.

337 PCGS 1795 Draped Bust Fine 15. B-14. Portrait placed too far to the left. The gray-gold surfaces lighten to a silvery-gray

color on the highpoints. Tiny rim bump below the 5 in the date.

338 PCGS 1796 XF 40. Large Date, Small Letters. B-5. An appealing, well balanced example, toned a medium golden-gray and free of adjustment marks. Diagnostic die lump between I and C in AMERICA.

339 PCGS 1798 Large Eagle VF 20. B-8a. Toned in smoky golden-violet hues. Extremely late die state.

SEATED DOLLARS

340 PCGS 1845 AU 55. A pleasing, lightly circulated example of this better date, from an original mintage of only 24,500 pieces. The profile surfaces accentuate the marks picked up as this coin acquired 5 points of wear. Verdigris is noted among the figures of the date, otherwise the coin is fully brilliant.

341 PCGS 1853 AU 50. A golden toned example of this slightly better date. For the collector assembling a lightly circulated set.

342 PCGS 1859-O XF 45. Brilliant with hints of golden color beginning to form.

343 PCGS 1859-S AU 55. A very difficult date to obtain in uncirculated condition, this lot makes a good substitute. Violet and gold toning adorn this scarce issue.

344 ANACS 1871 VF 20. A pleasing, problem-free example of this common date. Uniformly toned.

345 PCGS 1872 MS 64. Extremely choice for this or any other Seated Liberty dollar issue, being toned on both sides in a warm blend of golden-gray, lilac, and soft bluish-green. The underlying surfaces display sharp, frosty features and few appreciable marks. Rare as such. Population: 2 in 64, 2 higher.

TRADE DOLLARS

346 PCGS 1873-S MS 62. A very difficult date to acquire in uncirculated condition. To date PCGS has only graded 31 total coins from MS 60 through MS 65! An opportunity not to be missed.

347 PCGS 1874-S MS 63. Light golden-brown toning. The reverse is deeper in color.

348 PCI 1876-S MS 61 Surface Damage. Chopmarked. The chopmark is just below Liberty's knee. Otherwise a pleasing coin. The reverse exhibits light golden toning.

349 PCGS 1877 MS 62. Gold and brown toning.

PROOF TRADE DOLLARS

350 NGC 1875 PR 65. Light gold and violet color about the peripheries. These coins are so beautiful when they are well-preserved and original.

351 PCGS 1881 PR 64. Deep shimmering mirrors without a hint of color. For the type collector who loves his/her coins white.

MORGAN DOLLARS

The January 1994 Orlando Sale

- 352 PCGS 1878 7/8TF Strong MS 64. Basically untuned. The more desirable variety.
- 353 PCGS 1878-CC MS 62; PCGS 1891-CC MS 61, Vam-3, spitting eagle variety; PCGS 1902-S MS 62, streaks of light toning down the reverse; and a PCI 1928 AU 55. (Total: 4 coins)
- 354 NGC 1879 MS 63, prooflike obverse; PCGS 1880-S MS 62; PCGS 1882-S MS 62; PCGS 1883-O MS 62, milky toning; PCGS 1884-O MS 61; ANACS 1890-S MS 60; NGC 1896 MS 62; PCGS 1900-O MS 62; PCGS 1901-O MS 62; and a PCGS 1923 MS 62. (Total: 10 coins)
- 355 NGC 1879 MS 63; PCGS 1880 MS 63, delicate obverse toning; PCGS 1882-O MS 63; NGC 1883 MS 63; PCGS 1884 MS 63; PCGS 1884-O MS 63; PCGS 1888 MS 63; PCGS 1898-O MS 63; and a PCGS 1921 Morgan MS 63. (Total: 9 coins)
- 356 NGC 1879-CC MS 63 Deep Mirror Prooflike. Stunning deep mirrors with lovely russet-gold color on the reverse. The '79-CC has always been one of the most popular dates in the series, but to obtain one in true DMPL has always been a difficult task. A dollar sure to bring out the bidding paddles.
- 357 PCI 1879-O MS 65.
- 358 PCGS 1879-S Reverse of 1878 MS 62. An affordable example of this scarce and popular variety.
- 359 NGC 1879-S Reverse of 1878 MS 64 Prooflike. Deep mirror fields are covered by a layer of mottled color. A very desirable coin and virtually unobtainable any nicer. A lot which will see heavy floor and mail activity.
- 360 NGC 1880-CC MS 65 Deep Mirror Prooflike. One of the really tough DMPL dates in the series. Enough have been graded to make them affordable, but not enough to make them readily available. This one will go to a new owner who will be thrilled with the almost cameo devices. Neither service has graded a coin finer.
- 361 PCGS 1880-O MS 63. A white, premium example of this condition rarity. Housed in the old style PCGS holder.
- 362 NGC 1880-S MS 68. A stunning, superb example of the "common" Morgan dollar. One of only 6 pieces to obtain this grade from NGC.
- 363 PCI 1880-S MS 65 Prooflike; 1883 MS 63 Deep Mirror Prooflike, cameo contrast; and an 1891 MS 64, golden-gray toning. (Total: 3 coins)
- 364 PCGS 1881-CC MS 67. Satiny fields, a smooth cheek, virtually untuned, an outstanding strike, what else do you want? The perfect CC dollar, and it's a tougher date! One of only 22 pieces to achieve this level of perfection and none are finer.
- 365 NGC 1881-CC MS 65 Prooflike. Pleasing and white.
- 366 PCGS 1881-O MS 63 Deep Mirror Prooflike. So, it's only an MS 63? Well, there are only a couple of dozen MS 64 DMPL dollars of this date and NONE finer. Need we say more?
- 367 PCGS 1882-CC MS 64 Deep Mirror Prooflike. What can have better eye-appeal than a nice DMPL dollar? No wonder so many people love and collect this series.

- 368 PCGS 1882-O/S MS 62. A lightly toned obverse with a mostly brilliant reverse. A variety which has finally come into its own over the past several years.
- 369 PCGS 1882-S MS 67. Although considered a common San Francisco dollar, this is by far the scarcest of the 1879-1882 group. Worthy of a premium for that reason and because it is a premium example for the grade.
- 370 NGC 1882-S MS 64 Deep Mirror Prooflike. Brilliant.
- 371 NGC 1882-S MS 65 Deep Mirror Prooflike. Fully brilliant.
- 372 NGC 1882-S MS 65 Deep Mirror Prooflike. Premium quality for the grade.
- 373 NGC 1882-S MS 66 Prooflike. Fully brilliant.
- 374 NGC 1882-S MS 66 Deep Mirror Prooflike. We no longer call this date "common" when we reach this state of preservation. This is one of only 5 pieces to be graded as such with none finer. If you are putting together a quality set of Morgans, then this lot is for you.
- 375 PCGS 1883-CC MS 66. Frosty and brilliant.
- 376 NGC 1884 MS 65 Deep Mirror Prooflike. Another scarcer date at this level of preservation.
- 377 PCGS 1884-O MS 66. Very light toning.
- 378 PCI 1884-O MS 66. A most pleasing lot. Full booming luster without a trace of color.
- 379 PCGS 1884-S AU 55. The first of two lightly toned sliders of this condition rarity, both displaying sharp central details.
- 380 PCGS 1884-S AU 55. Almost identical to the previous coin, but displaying more of a milky golden hue across the obverse.
- 381 PCGS 1885-CC MS 63 Deep Mirror Prooflike. An especially pleasing reverse.
- 382 PCGS 1885-O MS 66 Prooflike. A scarce coin in MS 66 PL. To date, only 4 pieces have attained this grade. A coin worth more than than current levels might indicate.
- 383 NGC 1885-S MS 63 Prooflike. Usually this date can be found as a one-sided PL. Here is a pleasant exception.
- 384 PCGS 1886 MS 66. Shimmering semi-prooflike fields should help this piece command a premium.
- 385 PCGS 1886 MS 66. A virtual twin to the preceding lot.
- 386 NGC 1886 MS 65 Deep Mirror Prooflike. Lovely mirrors for the fussy collector.
- 387 PCGS 1886-S MS 64. An acceptable example housed in the old style PCGS holder.
- 388 NGC 1887 MS 66. Semi-prooflike and pleasing.
- 389 NGC 1887 MS 65 Deep Mirror Prooflike. Deep watery fields.
- 390 PCGS 1887 MS 65 Deep Mirror Prooflike. Fully brilliant and showing only minimal coin-to-coin contact.
- 391 PCGS 1887/6 MS 63. A popular variety that is visible to the naked eye.

The January 1994 Orlando Sale

- 392 PCGS 1888 MS 66. Mostly brilliant with razor sharp central details and, most importantly, ultra clean surfaces. Far from a common date in such outstanding grade.
- 393 PCGS 1888-O MS 65. Satiny and bold.
- 394 PCGS 1889-S MS 62. Quite frosty with moderate facial marks.
- 395 NGC 1890-CC MS 62. Tailbar Variety. White and frosty.
- 396 PCGS 1890-CC MS 63. Bright satin-like surfaces.
- 397 NGC 1890-O MS 64, spectacularly toned in orange, rose, and blue; and an 1891-S MS 64, frosty white devices. (Total: 2 coins)
- 398 NGC 1890-O MS 63 Deep Mirror Prooflike. Untoned with nearly complete definition in the centers and ample contrast.
- 399 NGC 1890-O MS 64 Deep Mirror Prooflike. The devices on this two-toned specimen are as frosted as any we have seen for the issue.
- 400 PCGS 1890-O MS 64 Deep Mirror Prooflike. A third DMPL of this date, also displaying boldly struck centers.
- 401 NGC 1890-S MS 64 Deep Mirror Prooflike. A clean cameo specimen and a date that is surprisingly difficult to locate as such. Population: 10 in 64, 1 higher.
- 402 NGC 1891 MS 64. Toned an original rose-gray over both sides. High quality for this underappreciated P-mint.
- 403 PCGS 1891-CC MS 63. Frosty with a hint of silvery-gold patina on the reverse.
- 404 PCGS 1891-CC MS 63. The obverse is toned a milky gray-violet with overlays of mottled reddish-gold.
- 405 PCGS 1891-CC MS 64. A clean, satiny white example that gives the appearance of a higher grade.
- 406 NGC 1891-CC MS 65. Wholly original, satiny surfaces that display a mixture of light golden-gray, brick red, and sea green toning predominately over the obverse. One of the scarcer Carson City Morgans in gem condition. Population: 28 in 65, none higher.
- 407 PCGS 1891-O MS 63. Original silvery-gray and golden surfaces that are particularly clean on the obverse and better struck than most of this issue.
- 408 PCGS 1892-CC MS 62. Both sides display a hard, satiny brilliance and only a few toning spots here and there.
- 409 PCI 1892-CC MS 63 Deep Mirror Prooflike. Considerable contrast with attractive rose-gold toning peripherally.
- 410 NGC 1892-S AU 53. One of the true condition rarities in the Morgan dollar series and one that is unaffordable to most collectors in mint state. The steely-gray surfaces, outlined in antique-gold, exhibit much of their original luster and show only modest wear on the highpoints. Trends \$2,700 in AU 50.
- 411 PCGS 1893 MS 63. Bright and frosty with a dash of golden color across the reverse.
- 412 NGC 1893-CC MS 62 Prooflike. Fully brilliant with an above-average strike for this elusive Carson City date. Quite scarce as a PL. Population: 6 in 62, 4 higher.
- 413 ANACS 1893-CC MS 62 Prooflike. The strike is typically weak in the central portions. Brilliant and pleasing.
- 414 ANACS 1893-O AU 58. Boldly struck and ever so close to full mint state quality, showing peripheral toning here and there. Comes with a PCGS AU 58 insert as well.
- 415 PCGS 1895-O AU 50. A pleasing, well struck specimen partially framed in orange-gold toning. Much of the original luster remains, particularly on the reverse.
- 416 NGC 1895-O AU 53. True BU examples of this date are out of reach for the budget-minded collector. This lot will make a fine substitute. Toned about the peripheries in blues, greens, yellows, and reds. A pleasing example.
- 417 PCGS 1895-O AU 55. Steely-gold in color with full breast feather definition on the reverse. An affordable compromise between an average AU and, for most, a cost prohibitive BU.
- 418 PCGS 1896 MS 66. Fully struck and uncommonly blemish-free for the issue.
- 419 PCGS 1897-O MS 61. Both sides of this conditionally scarce O-mint display ample sharpness on the highpoints and are toned in milky golden-steel shades.
- 420 PCGS 1898 MS 65. A frosty, original example with hints of gold at the borders.
- 421 PCGS 1898 MS 65 Prooflike. Light golden and rose-gray patina over reflective surfaces. Scarce as a gem prooflike.
- 422 PCGS 1899 MS 65. A few specks of toning are seen on and before Liberty's mouth. Popular, low-mintage issue.
- 423 NGC 1899-O MS 64; 1900 MS 63; 1900 MS 64; 1900-O MS 64; 1902-O MS 63; and a 1924 MS 62, all with varying degrees of toning. (Total: 6 coins)
- 424 PCGS 1899-O MS 65, three pieces, all with clean cheeks and bright, satiny luster. (Total: 3 coins)
- 425 PCGS 1899-O MS 65, four pieces, all from the same source as the preceding lot. (Total: 4 coins)
- 426 NGC 1899-O MS 65 Prooflike, brilliant and highly reflective; and a PCGS 1900-O MS 65 Prooflike, a strong strike with die striations in the fields, normal for PLs of this issue. Scarce. (Total: 2 coins)
- 427 PCGS 1899-O MS 65 Deep Mirror Prooflike. Mostly brilliant with shimmering fields and clean, frosty devices. Population: 33 in 65, 11 higher.
- 428 PCGS 1900-O MS 65 Prooflike. Fully detailed with die striated, solidly reflective fields. Despite the appearance of two gem PLs, the 1900-O is elusive as such.
- 429 NGC 1901-O MS 65. Semi-prooflike with light golden color.
- 430 NGC 1901-O MS 63 Prooflike. A bright, well defined specimen.
- 431 NGC 1902 MS 63, golden peripheral toning; 1903 MS 63; and a 1904 MS 63, all scarcer-than-common issues. (Total: 3 coins)
- 432 PCGS 1902-O MS 66. Satiny and extremely well preserved. The "02-O" can be considered common up to and including MS 65 condition, but superb pieces are much more difficult.

The January 1994 Orlando Sale

- 433 PCGS 1902-O MS 65 Prooflike. Watery untuned surfaces. The 1902-O is some thirty times scarcer as a gem PL than in similar non-prooflike condition.
- 434 NGC 1902-O MS 66 Prooflike. Original gray and golden toning with flashes of subtle blue about the borders. Wonderfully preserved and quite scarce as such. Population: 4 in 66, none higher.
- 435 NGC 1902-O MS 65 Deep Mirror Prooflike. A brilliant, intensely reflective specimen that is also refreshingly clean on those fragile surfaces. DMPL examples of this date grading higher than MS 64 are few and far between. Population: 13 in 65, 1 higher.
- 436 PCGS 1902-S MS 62. Brilliant and sharper than this scarcer S-mint is often found.
- 437 PCGS 1903 MS 65. Toned an attractive golden-rose on both sides.
- 438 PCGS 1903 MS 65. Untoned with deep, satiny brilliance.
- 439 NGC 1921 MS 63 Deep Mirror Prooflike. An obvious early striking, boasting not only bright reflective fields but razor sharp devices as well. This common, often overlooked, issue emerges as a scarcity in DMPL.
- 440 PCGS 1921-D MS 65. Clean, well frosted surfaces.
- 441 NGC 1921-D MS 65 Prooflike. An eye-popping '21-D, delicately toned about the peripheries and displaying all the qualities one hopes for but hardly ever sees on this lone Denver-mint Morgan. Population: 11 in 65, none higher.

PROOF MORGAN DOLLARS

- 442 Hallmark 1885 PR 63. Deep, deep toning in shades of violet and blue. If you don't like your coins with color don't bother with this lot.
- 443 PCGS 1886 PR 60. Golden-steel toning that deepens somewhat about the devices. A bit lacking in flash, thus precluding a higher grade.
- 444 PCGS 1893 PR 63. Minimally hairlined, particularly on the reverse beneath an overall coating of lilac and golden patina. There is a faint diagonal toning streak on the reverse. This date enjoys added popularity as a proof with the scarcity of all business strikes in choice condition.
- 445 PCGS 1903 PR 64. Ultra flashy surfaces framed in golden toning. An upper-end specimen that even shows contrast between fields and devices, something that is not guaranteed on this later-date proof.
- 446 PCGS 1904 PR 61. Smoky violet and coppery-gold toning downplays the underlying hairlines. An affordable example, one of just 650 pieces struck.

PEACE DOLLARS

- 447 PCGS 1921 MS 61. Well struck and displaying speckled obverse toning.
- 448 PCGS 1921 MS 63. Light color with strong luster but weak in the centers.

- 449 PCGS 1921 MS 63. Lustrous.
- 450 PCI 1921 MS 63PQ 75% Toned. Better struck than most.
- 451 NGC 1923-S MS 64. Lustrous with just a bit of light color on the reverse. Above average strike.
- 452 PCGS 1925 MS 65. Fully struck and golden toned.
- 453 PCGS 1926-D MS 64. Sharply defined with bright satin-like luster.
- 454 ANACS 1926-D MS 65. The clean, lustrous surfaces show a deep mixture of golden and lilac patina.
- 455 NGC 1927 MS 60; 1934 MS 61; and a 1935 MS 60. All are brilliant. (Total: 3 coins)
- 456 PCGS 1927-D MS 62. A bit abraded but sharply struck and lustrous.
- 457 NGC 1927-D MS 64. Fully struck with blazing mint luster.
- 458 NGC 1927-S MS 64. Well struck with mottled obverse toning. An attractive example of this scarce, semi-key issue.
- 459 PCGS 1934-S MS 62. Original surfaces with light gray patina in the centers and surrounded at the rims by a golden-russet tone. Well struck with only minor abrasions. A more affordable example of this key date issue.
- 460 PCI 1934-S MS 62. 100% White. The untuned surfaces allow the full force of the coin's luster to beam through unimpeded. Lightly abraded on the obverse.
- 461 NGC 1934-S MS 65. Mostly brilliant obverse with some golden-brown toning arching from 11 o'clock to 4 o'clock. Turn the coin over and see a deep violet-gold toning covering the entire reverse.
- 462 PCGS 1934-S MS 66. An outstanding example of this scarce, key date issue. The surfaces are virtually devoid of abrasions and are covered with deep layers of gray, lilac, and golden-rose with shimmering luster beneath. An exceptional '34-S for the advanced dollar collector. Population: 9 in 66, none are finer.

COMMEMORATIVE GOLD

- 463 PCGS 1903 Louisiana Purchase/Jefferson MS 66. A near-perfect example of this popular early commemorative gold dollar. The only noticeable flaws are a tiny alloy spot on the obverse, a thin streak of a grease stain (as struck) in the date area on the reverse, and a weak impression on PURC(H)ASE.
- 464 PCGS 1904 Lewis and Clark MS 63. Surprisingly clean surfaces overall and showing a faint outline of olive at the margins. A good value in this very scarce issue.
- 465 PCGS 1905 Lewis and Clark MS 64. Bright, lustrous surfaces overall with no distracting blemishes on either side. A very pleasing, upper-end example of this key date commemorative gold dollar.
- 466 PCGS 1915-S Panama-Pacific Gold Dollar MS 65. A lovely Pan-Pac, this piece has incredibly vibrant color with rich coppery overtones on the devices and distinctive gray-lilac patina in the recessed areas. A high-end gold dollar that must be seen to be appreciated.

The January 1994 Orlando Sale

- 467 PCGS 1915-S Panama-Pacific Quarter Eagle MS 65. Lustrous and problem-free, this is an attractive example of this scarce and much-in-demand commemorative gold coin.
- 468 PCGS 1917 McKinley MS 62. Reddish color.
- 469 PCGS 1926 Sesquicentennial MS 62. Deep golden-orange color.
- 470 PCGS 1926 Sesquicentennial MS 64. Clean surfaces and sharply struck with a faint outline of olive around the peripheries.

GOLD DOLLARS

- 471 NGC 1849-D MS 61. The '49-D is the most common Type One D-mint gold dollar and the one date from this mint that can most readily be found in and around mint state. This piece shows the usual soft strike on the hair curls of Liberty and the surfaces have an attractive green-gold color overall with light reddish accents.
- 472 NGC 1850 MS 65. While generally considered a rather common date in the Type One series, the 1850 is rather elusive in gem and near-gem condition. This is a well struck coin with glowing mint luster and surfaces that are problem-free to the unaided eye. Population: 6 in 65, only 1 finer.
- 473 NGC 1851 MS 62.
- 474 NGC 1851 MS 63. Sharply struck.
- 475 PCGS 1851 MS 64. Fully struck with excellent luster and lovely surfaces that show a slightly deeper patination than usual.
- 476 NGC 1851-O MS 62. Lustrous and only slightly soft with several more obvious surface marks.
- 477 NGC 1852-O MS 61. A conditionally scarce O-mint displaying satiny yellow-gold surfaces that are of average or better sharpness. Trends \$1,450 in MS 60.
- 478 NGC 1853 MS 62 Full strike.
- 479 NGC 1853-O MS 62. The '53-O is the most available Type One gold dollar from the New Orleans mint and can occasionally be located in mint condition. This piece has bright lustrous surfaces, yellow-gold color, and is sharply struck unlike most examples which are weak in the centers.
- 480 NGC 1854 Type One MS 64. Fully struck with deeply colored luster and clean surfaces overall.
- 481 NGC 1854-S MS 62. Reasonably scarce in all grades, the 1854-S is a popular issue with collectors as it is the only Type One gold dollar from the San Francisco mint. This piece is fully struck with bright luster and deep reddish color with a few scattered abrasions in the fields. Population: 2 in 62, 3 finer.
- 482 NGC 1854 Type Two AU 58. Well defined on both sides with very little of the normally seen softness in the centers. There is also only a trace of die clashing in the fields, also unlike the usually seen examples of this date. Nearly full mint luster and showing only a couple of field marks on the obverse.
- 483 NGC 1855 Type Two AU 58. Bright surfaces and well struck with sharply defined die clash marks in the fields. There are a

few marks on each side and a planchet flake that covers the 1 in AMERICA.

- 484 NGC 1855 Type Two AU 58. A well struck super slider, just a rub or two away from full mint state. A very popular coin in this grade.
- 485 PCGS 1855 Type Two MS 62. Even though there are quite a few survivors of this date in the lower grades, and even several in mint condition, this date's status as a Type Two coin has greatly elevated its desirability, popularity, and price well beyond that of far scarcer issues of the Type One and Type Three designs. This piece has good mint luster and is well defined, even in the centers, and, of course, shows the ubiquitous die clash marks in the fields.
- 486 NGC 1855-C AU 50. The 1855-C is an important issue as it is the only Type Two dollar from the Charlotte mint. It also has the distinction of being the most conditionally rare issue in the entire gold dollar series. This piece is in the lower range of condition census with only three mint state coins known. As always, the middle digits of the date and the LL in DOLLAR are weakly impressed. There are faint traces of die clashing in the fields and the coin overall has a pleasing greenish-gold color with an accent of light reddish patina here and there. Trends \$5,000.
- 487 PCGS 1856 MS 62. Slanting 5. Sharply struck and fully lustrous, just a bit baggy.
- 488 NGC 1857 MS 62. Good luster but slightly weak in the centers, as usual.
- 489 NGC 1857-S AU 55. The '57-S is one of the condition rarities in the gold dollar series. It is very scarce in AU and mint condition. This piece is sharply struck throughout and shows bright prooflike fields. An important offering of this scarce, low mintage issue. Trends \$1,850 in AU 50, \$7,000 in MS 60.
- 490 NGC 1859-S VF 35. A reasonably scarce issue with only 15,000 pieces produced and a major condition rarity in the series with very few examples known in choice condition. This piece shows even wear over the highpoints and very few field marks. An underrated issue. Trends \$275 in VF 20, \$575 in XF 40.
- 491 NGC 1859-S AU 55. Like the 1857-S, the 1859-S is also one of the premier condition rarities in the gold dollar series. It is fairly scarce in all grades but exceedingly difficult in AU and mint state. This is a well struck coin with much luster remaining, especially on the reverse. There are several minor scratches on the obverse, but these have little effect on the overall appeal of the coin. Trends \$1,950 in AU 50, \$5,500 in MS 60.
- 492 NGC 1862 MS 62. Fully lustrous and sharply struck.
- 493 PCGS 1863 MS 65. A very rare gold dollar that is seldom seen in any grade, as indicated by the mintage of 6,200 pieces. The 1863 is only marginally less rare than the well known 1875, but it is nowhere near as widely recognized. One estimate places the number of survivors at 50 pieces, but this may be high. This piece is the third finest known, being exceeded by a single NGC MS 66 and a PCGS MS 67. Unlike the usually encountered coins of this date, this piece shows no evidence of striations in the planchet. The luster is thick and creamy with a rich overlay of golden-orange patina. The only noticeable mark, and the single most identifying feature one can use to trace the pedigree of this important coin, is a thin, angling mark on the cheek of Liberty. Otherwise, a virtually flawless

The January 1994 Orlando Sale

coin and a significant offering of this third finest known example of this rare date.

494 PCGS 1869 MS 62. Bright, lustrous surfaces and well struck throughout with none of the weakness usually seen at R in DOLLAR. Very scarce with a mintage of only 5,900 pieces.

495 PCGS 1869 MS 65. A scarce and unheralded date among later issues of gold dollars with a mintage of only 5,900 pieces. Very scarce in strict gem condition with only 4 pieces having been so graded with 7 finer. This piece is fully struck throughout, showing no weakness on the reverse as so often seen. The fields are prooflike and show evidence on the reverse of having been struck from heavily lapped dies. Trends \$8,000.

496 PCGS 1874 MS 62. Scattered, small abrasions.

497 PCGS 1874 MS 63. Deep reddish-orange color and showing a few small facial blemishes.

498 PCGS 1882 MS 65. Fully struck with superb mint luster, this issue is a common one for gold dollars and almost all surviving examples are high grade mint state pieces.

499 NGC 1883 MS 64. Semi-prooflike in the fields and showing only slight softness of details at the denticles. Sharply struck with pleasing, slightly variegated color. Popular low mintage issue.

500 NGC 1883 MS 66. Fully struck, this is an exceptional gold dollar with rich golden-rose and steel-blue patina interspersed over each side. Virtually flawless and possessed of very strong eye appeal. Population: 11 in 66, 1 finer.

501 PCGS 1883 MS 67. A stunning type coin that appears to be perfectly preserved. The only difference in the coin today and when it was struck 111 years ago is the deep reddish-orange and steel-blue patina that is interspersed over both sides. Fully struck.

502 NGC 1885 MS 62. Somewhat scuffy but deeply reflective fields.

503 PCGS 1888 MS 64. Fully struck with deep reddish-coppery color overall that is accented by a band of pale blue at the margins. Kept from the gem category by a long, thin scratch in the left obverse field.

504 NGC 1889 MS 66. An enchanting high-end type coin that has flashy, reflective fields on each side and virtually no marks. Final year of issue for the denomination and always a popular choice for type purposes.

PROOF GOLD DOLLARS

505 PCGS 1879 PR 64. A very rare gold dollar as a proof, and a date not to be confused with the common proofs from the mid and late 1880s. It has been estimated that of the 30 proofs struck, only 15-18 survive today. This piece is a State 1 coin, struck on January 25, as evidenced by the crisscrossing lines within the left bow. This is a deeply reflective proof that has a good portion of frost on the devices that provides the coin with a stark white on black cameo contrast. There are a few scattered marks in the fields, but these do little to diminish the overall attractiveness of the coin. Population: 1 in 64, 1 finer.

506 PCGS 1883 PR 64. There were 207 proofs struck in this year, and of that number it has been estimated that perhaps fewer than 70 pieces remain today. This is a deeply reflective coin that shows several small contact marks on each side and the distinctive orange peel surface common to proofs of this year. Population: 7 in 64, 9 finer.

CLASSIC QUARTER EAGLES

507 PCGS 1834 Classic AU 55. A very pleasing Classic quarter eagle, there are no obvious or distracting marks in the fields and the strike is quite strong throughout. Semi-prooflike.

508 PCGS 1834 Classic MS 63. Even though everyone who has ever read more than a sentence about Classic quarter eagles and half eagles knows that the coins of 1834 are commonly found with prooflike fields. Yet, as common as they may be, such coins never fail to impress. And this is such a piece. The fields are nicely reflective and the hair curls on Liberty are remarkably well defined. There are a few small contact marks scattered about, but none bear individual mention. A lovely Classic quarter eagle that is destined for a choice type set.

509 NGC 1835 MS 60. A decidedly scarcer issue than the 1834 and much more elusive in high grades. Unlike many 1834s, 1835 quarter eagles are usually not seen with prooflike fields. This piece, however, shows significant reflectivity in the fields with only slight mint frost intermingled. The surfaces overall are a lovely greenish-gold and there are several small marks on each side. Softly struck on the hair curls, as always.

LIBERTY QUARTER EAGLES

510 PCGS 1843-D VF 35. Perhaps the most common D-mint quarter eagle, this is an original example with deeper color adhering to the devices. Very clean for the grade and problem-free.

511 PCGS 1847-O MS 64. The 1847-O is much scarcer than its relatively large mintage of 124,000 pieces would suggest. At most there are only 2-3 strictly mint state coins that are known, and this piece is easily the finest known. This is a lovely mint state piece that shows full frosted luster and pleasing green-gold color with just a touch of light reddish patina. Better struck than most O-mint quarter eagles, the obverse is slightly soft on the hair curls and star 2, but shows the usual central striking softness on the eagle around the shield. An important coin for the Southern gold specialist.

512 NGC 1850-D MS 61. The 1850-D is a major condition rarity among Dahlonega quarter eagles. It is very elusive in AU condition and this is the only mint state piece certified by either of the major grading services. This piece shows the typical softness of detail in the center of the eagle's breast as well as some indistinctness noted on the denticles. The only marks of note are a couple of luster scrapes in the upper reverse field. Trends \$13,750 in MS 60.

513 PCGS 1850-O VF 35. A choice VF piece with good color and clean surfaces, but softly struck on the eagle, as always. Scarcer than the mintage of 84,000 pieces would indicate.

514 NGC 1851 MS 62. Sharply struck, even on the eagle, and showing numerous small abrasions sprinkled across each side. A popular date for type purposes as the 1851 is one of the few dates from this decade that is available in strict mint condition.

The January 1994 Orlando Sale

- 515 NGC 1851 MS 64. The strike on this piece is more typical for the issue with softness noted on the central portions of the eagle. Sharply defined elsewhere with excellent mint luster and showing only a few minor luster grazes on each side. Conditionally important at this grade level with only 4 pieces having been so certified and none finer.
- 516 NGC 1851-O AU 58. Doubled Date. While not rare in the absolute sense, the 1851-O is definitely an elusive coin in the upper reaches of mint state, and only four pieces have been certified by the major services in mint condition, placing this piece in the lower reaches of the condition census. This piece is fully struck on the obverse and shows the usual soft strike on the eagle on the reverse. Bright and semi-prooflike, there are really no marks of any consequence on either side. Trends \$1,200 in AU 50, \$5,500 in MS 60.
- 517 NGC 1853 MS 63. Sparkling mint luster and well defined on the obverse with the usual soft strike in the center of the reverse. A lovely mint state coin with a few luster grazes and a horizontal grease stain (as struck) on the neck of Liberty. Trends \$1,650.
- 518 PCGS 1854 MS 64. Satiny and exceptionally clean, with a pinkish tint most noticeable across the obverse. The 1854 is far more difficult as a date than higher mintage issues such as the 1853 and 1861 among early Liberty quarter eagles. Gems are of the utmost rarity. Population: 8 in 64, none higher.
- 519 ANACS 1854-O XF 40. Breen-6228, strong date, 54 touch or about touch. A fairly common O-mint quarter eagle, this piece shows none of the usually seen clash marks, but is softly detailed in the center of the eagle. Original surfaces.
- 520 PCGS 1854-O AU 55. Medium orange-gold color with good remaining luster. There are a few scattered field marks and a small planchet depression on the reverse. One of the more available O-mints from this era. Trends \$675 in AU 50, \$1,750 in MS 60.
- 521 PCGS 1860-C AU 50. The '60-C is a rare Charlotte quarter eagle that is extremely elusive in high grades (above XF) and almost always struck on poorly produced planchets. As the reverse die used was left over from 1858, the details on the eagle are indistinct and blurry, always being the weakest part of the coin. This piece is better detailed than most, and the planchet flaking is shallow and mostly concentrated in the reverse fields. A rare opportunity to acquire this very difficult Charlotte issue. Trends \$5,700.
- 522 ANACS 1861 XF 45. Breen-6258, doubled date, and "very rare" as such. Well struck with good color and a small, but noticeable, mark on either side.
- 523 PCGS 1865-S AU 50. A very scarce S-mint quarter eagle that is seldom found above VF. This piece is softly defined in the centers and shows a few small field marks on the reverse. Trends \$2,350.
- 524 NGC 1866-S XF 40. A moderately scarce issue that is usually not available any finer than XF. This piece has the striking softness common to S-mint gold of this era and there are a few noticeable marks, the most obvious one being in the center of the cheek. Trends \$1,300.
- 525 PCI 1868-S XF 45. Buffed. A somewhat scarcer S-mint, but softly struck on the eagle's leg, as usual.
- 526 NGC 1870 MS 60. A scarce, low mintage issue with only 4,520 pieces struck, most survivors are only XF with high grade coins being extremely rare. Only one coin has been certified in a higher grade by NGC, that being an MS 61 (which will appear in our February Long Beach Sale). This is a sharply struck piece that shows bright prooflike fields. The most distinctive and identifying feature is a horizontal mark in the field above the eagle's head on the reverse. Trends \$4,100.
- 527 NGC 1870-S AU 58. Usually only seen in VF and weakly struck in the center of the reverse, this piece is certainly above average. In fact, it is one of the finest examples known with only one mint state coin certified by NGC. There is just the slightest bit of striking weakness on the eagle's left leg and neck. Amazingly clean in the fields and over the devices, the most distinctive mark is a thin, angling scratch in the upper left obverse field. Trends \$1,200 in AU 50, \$5,500 in MS 60.
- 528 PCGS 1871-S XF 45. An especially choice example of this somewhat scarcer S-mint quarter eagle. The surfaces show almost no impairments and there is a deep reddish patina that surrounds the devices on each side.
- 529 NGC 1871-S AU 55. Bright surfaces overall with just a trace of light reddish color, and again, only the most insignificant abrasions.
- 530 NGC 1873 Open 3 MS 61. Light in color with numerous abrasions scattered about.
- 531 NGC 1873 Open 3 MS 63. Lustrous and well struck.
- 532 PCGS 1873 Closed 3 AU 55. Slight friction, light pinkish color. A moderately scarce issue. Trends \$305 in AU 50, \$1,400 in MS 60.
- 533 NGC 1874 AU 58. Mildly prooflike with just a touch of scuffiness in the fields. Very scarce as a date, one of only 3,940 pieces struck, with mint state pieces of extreme rarity. Trends \$875 in AU 50, \$4,000 in MS 60.
- 534 NGC 1874 MS 61. The 1874 is a relatively common issue in the lower circulated grades, but in strictly uncirculated condition it is very scarce. This is one of the finest examples known and is exceeded only by three other pieces, all certified by PCGS. This is a sharply struck coin with bright prooflike fields and pale yellow-gold color. Numerous small abrasions pepper both sides. Trends \$4,000 in MS 60.
- 535 NGC 1877-S XF 45. The only noticeable surface flaw is a long mark down the cheek of Liberty. Well defined.
- 536 PCGS 1877-S AU 55. Well struck with much of the mint luster remaining and showing some reddish accents of color.
- 537 PCGS 1878 MS 63. Lustrous with much reddish color on each side.
- 538 NGC 1879 MS 62. Sharply struck with bright, flashy fields.
- 539 NGC 1879 MS 65. A moderately scarce issue and one of the finest examples known with only three other pieces having been so graded by NGC. This is a fully struck coin that has lovely mint frost and scattered bits of reddish color on each side.
- 540 PCGS 1880 AU 58. A scarce, low mintage issue that had only 2,960 pieces struck. Sharply struck with bright, semi-prooflike surfaces.
- 541 NGC 1882 AU 58. Sharply struck, as always, with bright prooflike fields. Scarcer low mintage issue with only 4,000 pieces struck.

The January 1994 Orlando Sale

542 NGC 1882 MS 60. A popular, low mintage issue with only 4,000 business strikes produced. Fully struck with a couple of more noticeable marks in the fields.

543 NGC 1883 AU 58. Sharply struck with prooflike fields. A very scarce date with only 1,920 business strikes produced.

544 PCGS 1888 MS 62. Deep orange-gold color and softly struck in the centers, as usual.

545 PCGS 1889 MS 61. Well struck with deep reddish color.

546 PCGS 1889 MS 64. Deep reddish-golden color with frosted mint luster beneath. A lovely near-gem type piece.

547 PCGS 1893 MS 64. Clean and well struck, this is an attractive type coin with no apparent problems.

548 PCGS 1899 MS 62.

549 NGC 1900 MS 63. Sharply struck.

550 PCGS 1903 MS 62.

551 PCGS 1903 MS 64. Well defined, the reddish tinted surfaces show just a trace of peripheral olive color.

552 PCGS 1904 MS 62.

553 NGC 1905 MS 64. A well struck, upper-end coin that shows no detracting surface blemishes. Rich golden-reddish color.

554 NGC 1905 MS 64. Fully detailed throughout and produced on a striated planchet that gives the coin a profound prooflikeness.

555 PCGS 1906 MS 62.

556 PCGS 1906 MS 63. Lustrous and sharply struck.

557 PCGS 1907 MS 62. Good color.

558 PCGS 1907 MS 64. Lustrous.

559 PCGS 1907 MS 64. A charming coin that shows a steely-blue color intermixed with orange-golden seen overall and accented by a light reddish-copper hue on the highpoints. Colorful to say the least. Fully struck also.

560 PCGS 1907 MS 64. Fully struck with bright, frosted luster and showing just a bit of reddish color at the margins.

PROOF LIBERTY QUARTER EAGLES

561 NGC 1894 PR 64. Of the 122 proofs produced a century ago, it has been estimated that perhaps no more than 42 to 44 remain today. This is one of the finest examples known and is the highest grade given by NGC to a non-cameo 1894. There is a light hazy patina that covers the surfaces, but does not affect the illimitable depth of mirrored reflectivity in the fields. There are no obvious or distracting blemishes on either side of special note.

562 NGC 1895 PR 66 Cameo. A singularly impressive proof gold piece that shows heavily contrasted fields and devices with a light hazy patina surrounding the outer devices. This piece is

tied for the finest known example of the date. One estimate places the number of survivors between 45 and 55 pieces out of a mintage of 119 proofs. The 1895 proof quarter eagle is 8 to 10 times rarer than the more famous proof Morgan of the year.

INDIAN QUARTER EAGLES

563 PCGS 1908 MS 65. Well defined with smooth satiny luster and no obvious marks on either side. A splendid type coin and always a popular date because of the first year of type status.

564 NGC 1909 MS 63. Fully struck with remarkably clean surfaces for the grade. The coin actually resembles a matte proof with its fine grain surfaces and intricate detailing.

565 NGC 1909 MS 64. Fully struck with sparkling mint luster and minimal abrasions.

566 PCGS 1909 MS 64. Fully struck, the surfaces have a fine grain matte-like texture with satiny luster.

567 NGC 1910 MS 62.

568 NGC 1910 MS 63. Minimally abraded.

569 NGC 1911-D AU 58. Beautiful color and quite clean overall with just a bit of friction on the highpoints.

570 PCGS 1911-D MS 62. A select example of this rare date Indian quarter eagle that has interesting tonal qualities, with icy-blue patches interspersed with the deeper orange over both sides. Sharply struck.

571 PCGS 1914 MS 61.

572 NGC 1914 MS 61.

573 NGC 1914 MS 64. Good luster, sharply struck, and showing no distracting abrasions.

574 PCGS 1914-D MS 62.

575 NGC 1914-D MS 63. Good luster and much reddish color. The trailing feather on the headdress is softly struck, and there is a long scratch in the same area that prevents a higher grade.

576 PCGS 1915 MS 63. Full strike.

577 NCI 1915 MS 63. Well struck with no detracting field marks.

578 ANACS 1925-D MS 62. Bright.

579 PCGS 1925-D MS 64. A fully struck, upper-end coin that has magnificent, sparkling mint luster and no distracting field marks.

580 PCGS 1926 MS 62.

581 PCGS 1926 MS 62.

582 PCGS 1927 MS 64. Fully struck with bright mint luster.

583 PCGS 1928 MS 62. Bright surfaces.

584 NGC 1929 MS 62.

The January 1994 Orlando Sale

- 585 **PCGS 1929 MS 63.** Sharply defined with colorful surfaces. Two grease stains (as struck) are noted on the reverse.
- 586 **PCGS 1929 MS 64.** Well struck with bright, lustrous fields and only minimal abrasions.
- 587 **PCGS 1929 MS 64.** Sparkling luster and sharply struck with subtly variegated red and olive patina.

THREE-DOLLAR GOLD PIECES

- 588 **NGC 1878 AU 58.** Not quite fully struck, but the coin overall has a bright, lustrous sheen and there are a number of small abrasions over each side.
- 589 **NGC 1878 AU 58.** Most of the original mint luster still remains and there is slight friction on the highpoints. Much reddish color can be seen around each side.
- 590 **PCGS 1889 MS 64.** Final year of issue for the denomination, the 1889 is a popular type coin that was saved at the time of issue, but not in the large numbers that many other type coins were. This piece is fully struck and shows only the slightest abrasions, but is not quite lustrous enough to grade higher.

PROOF THREE-DOLLAR GOLD PIECE

- 591 **NGC 1865 PR 64 Cameo.** Original. The 1865 has the lowest mintage prior to 1881 with only 1,165 business strikes produced plus another 25 proofs. Akers estimates that perhaps some 10-12 proofs are still extant. Originals and restrikes are easily distinguished by the position and striking quality of the digits in the date. This is one of the finest pieces known of this very rare date with only 1 other coin having been so graded by the major services and another 3 in higher grade. This is a deeply mirrored coin with moderate frosting on the devices and a mild cameo contrast. There are few contact marks in the fields and the coin has good eye appeal.

EARLY HALF EAGLES

- 592 **PCGS 1804 XF 40.** Small 8. B. 3-E. Finely detailed, the hair strands show strong definition and the eagle's breast has fully articulated feathers. There are, however, a few marks in the fields that distract somewhat from the overall appeal of the coin. Still, an attractive early half eagle. Trends \$2,200.
- 593 **PCGS 1806 XF 40.** Round Top 6. This is a well centered early five that is fairly graded and shows only a few minor blemishes in the obverse fields. There are no adjustment marks as so often seen on this date. Pale greenish-gold color and showing faint traces of luster around the outer devices. Trends \$2,175.
- 594 **PCGS 1806 Round Top 6 MS 61.** Round Top 6 half eagles are one of the most common half eagles of the early types. As with this specimen, it can occasionally be located even in mint condition, the last we sold was another MS 61 in September of last year. This piece is well defined in most areas with a bit of softness at the juncture of the eagle's left wing and shield. As might be expected, there are a few field marks, but most of these are concentrated on the obverse. There is strong luster on each side and a bit of light red and steely-blue patina intermixed on each side.
- 595 **PCGS 1806 Round Top 6 MS 61.** As rare as early gold is in the absolute sense in all grades, mint state early gold is many

times rarer as there was so little incentive to preserve these high denomination coins in pristine condition 200 years ago. This is an enchanting piece that shows full luster throughout. The yellowish-olive cast of the coin has taken on a rich reddish hue in the fields that, on the obverse, gives the coin a halo effect, and on the reverse is mostly concentrated around the perimeter. Trends \$6,150.

CLASSIC HALF EAGLES

- 596 **PCGS 1835 AU 53.** Lovely yellow-gold surfaces and showing one facial blemish on the chin of Liberty and a couple of field marks.
- 597 **PCGS 1836 Fine 15.**
- 598 **PCGS 1838 VF 30.**
- 599 **PCGS 1838-D XF 45.** As the third rarest issue in the Classic series, the '38-D is the subject of consistent demand by collectors. This is a pleasing piece that is well defined in most areas with only slight softness on the hair curls. There are a couple of minor marks in the left obverse field that we mention for the sake of accuracy as they have very little effect on the overall visual appeal of the coin. Trends \$3,650 in XF 40, \$7,250 in AU 50.

LIBERTY HALF EAGLES

- 600 **PCGS 1840 XF 40.** Narrow Mill. Well struck with problem-free surfaces. The more common of the two 1840 varieties. Trends \$425.
- 601 **NGC 1840-O XF 45.** Narrow Mill. The more commonly seen of the two varieties, the Narrow Mill O-mints of 1840 coins are among the best struck of all branch mint issues of this year. However, that being said the centers are somewhat flat, as usual, but the margins are well defined. Traces of luster still remain and overall the coin has a pleasing light greenish-gold color, and there are no mentionable abrasions. Trends \$900 in XF 40, \$2,600 in AU 50.
- 602 **NGC 1840-O XF 45.** Narrow Mill. A second Narrow Mill example of this scarce issue. The coin measures 21.5 mm., the width of the Narrow Mill variety, and the greenish-gold surfaces show a few small abrasions on each side, none of which are especially distracting. Trends \$900 in XF 40, \$2,600 in AU 50.
- 603 **NGC 1842 AU 50.** Small Date. While not as scarce as the Large Letters variety, the Small Letters is definitely a difficult item to locate in AU or better condition. The Small Letters coins were struck early in the year as the dies for the Large Letters variety were sent to the various branch mints no later than March 22. This piece is well struck on each side and shows distinctive greenish-gold color. There are numerous tiny abrasions peppered across each side but the only noticeable ones are a couple in the lower left obverse field and a long scrape on the reverse above the word FIVE. Trends \$4,750.
- 604 **PCGS 1842-D Large Date VF 30.** A very rare half eagle, and in fact, the rarest of all Dahlonga issues in this widely collected series. Akers regards this issue as more elusive in all grades than even the 1861-D. It is a condition rarity as well with very few known in XF, perhaps only 3 or 4 pieces in AU, and nothing finer. This piece is not quite as well detailed as the one in our ANA Sale this past summer, but it does have good definition for a branch mint issue. The exposed areas of

The January 1994 Orlando Sale

- the design have taken on a rich reddish hue and there are three surface marks that serve as identifiers for those tracking pedigrees: a mark in the left obverse field out from stars 4 and 5, another behind the mouth, and an angling hit to the right of the mintmark. An important coin for the Dahlonaga specialist. Trends \$2,050 in VF 20, \$6,250 in XF 40.
- 605 PCGS 1843-O XF 45. Small Letters. A rare coin in all grades and quite elusive in XF or better. There is some dispute whether the Small Letters or Large Letters variety is the scarcer of the two. Written sources say the Small Letters is the more common, but Trends reflects higher prices in all grades. There is some softness of details in the centers but overall this is a pleasing, problem-free example of this scarce issue. Trends \$1,350 in XF 40, \$4,650 in AU 50.
- 606 NGC 1844 XF 45. Original yellow-gold surfaces.
- 607 NGC 1844-O XF 45. Attractive golden-orange accents with remnants of luster on the reverse. Scarce in higher grades.
- 608 NGC 1846-D/D AU 50. An unusual and interesting variety that shows the first mintmark buried in the device, then corrected lower, with both punches plainly evident. Usually only seen in VF or XF with AU pieces being quite scarce and in constant demand by Southern gold collectors. This is a well struck coin that shows numerous small abrasions and specks of light reddish patina on the reverse. Trends \$4,250 as a regular mintmark, unlisted as a doubled D.
- 609 NGC 1847/7 XF 45. Problem-free for the grade.
- 610 NGC 1847/7 AU 53. Sharply struck with bright surfaces and just a touch of light reddish color at the margins.
- 611 NGC 1847-D AU 53. A much scarcer date than the previous four issues from the Dahlonaga mint, the '47-D is very difficult in AU condition and highly prized by collectors in that grade. This coin is well defined on the obverse with the usual softness on the eagle's plumage on the reverse. The surfaces overall show a lovely greenish-gold color and there are a number of small bagmarks scattered over each side, the most noticeable ones being a small mark by star 5 and a scrape in the left obverse field. Trends \$4,150 in AU 50.
- 612 PCGS 1850 VF 25. Evenly worn on the highpoints. Scarce.
- 613 NGC 1850 VF 35. Original surfaces, softly struck in the centers. A scarce P-mint issue. Trends \$325 in VF 20, \$1,075 in XF 40.
- 614 NGC 1851 AU 58. Sharply struck with almost complete mint luster.
- 615 NGC 1852 AU 58. Well struck with original surfaces. There are a couple of marks on the reverse.
- 616 ANACS 1854 XF 40. An original coin with some central striking softness.
- 617 NGC 1854 AU 55. Well struck with much luster remaining.
- 618 NGC 1854 AU 55. Slightly scarcer P-mint that shows distinctive reddish color. Trends \$800 in AU 50, \$3,400 in MS 60.
- 619 NGC 1854 MS 60. A much scarcer date than most of the other P-mints from this decade. At the MS 60 level this is a mid-condition census coin with only a handful having been certified any finer. This is a sharply struck piece with much reddish
- color and the usual MS 60 bagmarks scattered about. Trends \$3,400.
- 620 PCGS 1854-C VF 30. A scarce and underrated date that is more difficult than one might imagine judging from the mintage of almost 40,000 pieces. Generally not located any finer than VF or XF, of the seven pieces we have sold over the past 14 months only one has graded AU. This is an original coin but is ill-defined in the centers and shows several facial blemishes. Rich reddish color covers both sides. Trends \$695 in VF 20, \$1,650 in XF 40.
- 621 NGC 1854-O AU 55. A much scarcer O-mint five than is generally believed and conditionally elusive above XF with AU examples rating a high R.6. This is an attractive piece with prooflike fields and a good strike on the obverse but a tad weak on the reverse. Trends \$2,600 in AU 50, \$7,000 in MS 60.
- 622 NGC 1855 AU 55. A sharply struck and clean example of this somewhat better P-mint five.
- 623 NGC 1856-C XF 40. A scarce Charlotte five-dollar that is usually not seen any finer than the present specimen. This piece shows softly defined features on each side and light, but extensively, abraded surfaces. The most notable mark is a small rim cut at 4 o'clock on the obverse. Trends \$1,850.
- 624 NGC 1856-C AU 50. The '56-C is widely recognized as being scarce in all grades. It is also an impressive condition rarity that is very seldom seen in AU. Over the past year we have sold three examples of this issue and none have graded as high as this piece. This coin is uncommonly well defined and the obverse is very clean. However, there are a couple of more noticeable abrasions on the reverse that deserve mention. Trends \$4,750.
- 625 NGC 1856-O XF 40. A pleasing XF coin with a soft strike on the reverse. This coin is exceptionally clean overall, and undoubtedly would be considered choice were it not for the aforementioned striking softness. Very scarce in all grades and rarely seen above the XF level. A low mintage issue also with only 10,000 pieces struck. Trends \$2,350.
- 626 NGC 1856-S XF 40. A scarcer date and seldom seen above the XF level. This is an original piece that is well struck on the obverse but slightly soft on the reverse. Trends \$875.
- 627 PCGS 1857-S XF 40. Large S. Well struck. A slightly scarcer issue. Trends \$800.
- 628 NGC 1858 AU 50. A rare issue and the first in a twenty year run of scarce, low mintage half eagles from the Philadelphia mint. This date's mintage was a mere 15,136 pieces and it is very elusive in all grades, but especially so above XF. This piece shows considerable reddish color and the strike is slightly soft in the central portions with a few small to medium sized abrasions on each side. Trends \$2,300.
- 629 PCGS 1860-C XF 40. With the third lowest mintage among Charlotte half eagles, the 1860-C has long been a favorite of Southern gold collectors. It is always found with indistinct details on the eagle on the reverse, not from a lack of striking pressure, but rather from reuse of the same faulty die that caused the same problem in 1859. This is an attractive piece that displays bright fields that were created by striating the dies prior to striking. A few marks are scattered here and there, but nothing is of any mentionable consequence. Trends \$2,100.

The January 1994 Orlando Sale

- 630 NGC 1866 AU 50. First year of issue of the new With Motto type and a rare coin in all grades with most surviving examples concentrated in the VF-XF grades. This piece is well struck on both sides and shows bright color. There are numerous small abrasions throughout, the most noticeable one and the one of greatest size being a long scrape across the cheek of Liberty. Trends \$4,650.
- 631 NGC 1868-S AU 55. Very rare in XF or better condition with only 3 other pieces certified in AU by the major certification services. The 1868-S is unknown in strict mint condition, making this one of the finest, if not THE finest, known example. This piece is missing a bit of luster in the fields and on the highpoints and there are a couple of light coppery stains scattered here and there. Well struck, except on the eagle's neck, as usual, with only minor abrasions. Trends \$7,500 in AU 50, unlisted any finer.
- 632 PCGS 1869-S VF 35. A scarce S-mint half eagle that is prohibitively rare above VF. This piece is remarkably clean for the grade with the only noticeable abrasions being a couple of marks that connect stars one and two. Softly struck in the centers, as usual. Trends \$700 in VF 20, \$2,750 in XF 40.
- 633 NGC 1869-S XF 40. A second and even finer example of this extreme condition rarity. Evenly worn and displaying only a few stray marks in the fields. Only two pieces have graded AU 50 or better (PCGS AU 53 being the highest) at either major service. Trends \$2,750.
- 634 ANACS 1873 Open 3 AU 55. Lightly abraded with good remaining luster.
- 635 NGC 1874 AU 58. A rare date in all grades and seldom seen above the VF-XF level, this piece is tied for second finest known, being exceeded only by a single MS 60 coin. Sharply struck on the obverse, there is just a bit of softness on the eagle's plumage on the reverse. The fields are bright and semi-profiled and there are numerous small abrasions on each side. Trends \$4,750 in AU 50, unlisted any finer.
- 636 PCGS 1877-S XF 40. A very scarce issue and one that is rarely seen above the VF-XF level. Softly struck in the centers. Trends \$1,175.
- 637 PCGS 1878-S XF 45. Slight reddish color. A somewhat better date.
- 638 NGC 1878-S MS 60. A scarce, late date S-mint that is seldom seen in mint condition. This piece shows some softness of detail in the centers and has a somewhat deficient luster, thus keeping it from grading higher, but is otherwise a clean coin, especially for the grade. Trends \$1,600.
- 639 PCGS 1879 AU 55. Well struck.
- 640 NGC 1879 MS 61. Lustrous with pinkish-gold highlights about the borders. A scarcer P-mint half eagle that hardly ever turns up in uncirculated condition. Population: 1 in 61, 9 higher.
- 641 NGC 1881 MS 62. Sharply struck and lustrous.
- 642 PCGS 1881 MS 63.
- 643 PCGS 1881/O MS 62. This is one of the finest examples known of this very rare overdate. Discovered in 1969, this is the first of the two varieties known. The bases of the digits in the date are all repunched lower and the scroll above the eagle is attenuated. Even without magnification one can see there is something protruding from the lower right base of the final 1 in the date. Of great importance to specialists in the series.
- Population: 4 in 62, none are finer. Trends \$4,750 in MS 60, unlisted any finer.
- 644 NGC 1881-S MS 63. Minimally abraded and showing good mint luster and light reddish color.
- 645 NGC 1881-S MS 64. This is a gem dandy type coin. All the features are fully defined and the fields have a bright semi-profiled sheen that is most attractive and contrasts mildly against the frost on the devices. The strong eye appeal is enhanced even more by a light reddish patina surrounding the devices. Population: 8 in 64, only 1 finer.
- 646 NGC 1882 MS 62. Attractive peripheral color.
- 647 PCGS 1882-S MS 62. Bright, lustrous surfaces.
- 648 PCGS 1882-S MS 62. Well struck.
- 649 PCGS 1884-CC AU 55. A rare, low mintage Carson City issue that is termed "prohibitively rare in AU" by Breen. This is surely one of the finest pieces known. The coin has bright prooflike fields, is minimally marked, and sharply defined throughout. A rare opportunity for the Carson City specialist. Trends \$4,500 in AU 50, unlisted any finer.
- 650 PCGS 1885 MS 62. Strong mint luster with a few scattered field marks.
- 651 PCGS 1887-S MS 62. Well struck with bright surfaces.
- 652 PCGS 1887-S MS 63. A very difficult date to obtain in quality mint state. To date PCGS has certified only 14 pieces in this grade with none finer. A special opportunity to put this conditionally scarce date away.
- 653 PCGS 1888-S AU 50. A scarcer coin than one might imagine, especially judging from the mintage of more than a quarter million pieces. A nice coin for the grade. Trends \$725.
- 654 NGC 1888-S AU 53. A scarce and underrated issue that is usually found no better than VF. This is a nice, problem-free coin for the grade. Trends \$725 in AU 50.
- 655 NGC 1888-S AU 58. In higher grades, this date is quite scarce and underappreciated. Virtually complete luster with only a few trivial marks in the fields.
- 656 NGC 1891 AU 55. This scarcer issue is well struck and problem-free.
- 657 NGC 1891 AU 55. Semi-profiled.
- 658 NGC 1892-CC AU 50. Well struck with medium orange-gold color and small portions of luster remaining around the devices. Trends \$635.
- 659 NGC 1893 MS 63. Fully struck with semi-reflective fields and lovely, subtly variegated color.
- 660 PCGS 1893-CC XF 45. Final year of issue from this popular Western mint. A nice coin for the grade, marred only by a series of small digs in the field below Liberty's hair.
- 661 PCGS 1894-O AU 55. A scarcer O-mint half eagle, this piece shows only slight striking softness in the centers and is remarkably clean with bright fields.
- 662 NGC 1895-S AU 55. Infrequently seen in any grade despite the large mintage, and almost never obtainable finer than AU.

Well struck with original surfaces. Trends \$975 in AU 50, \$4,250 in MS 60.

663 PCGS 1896-S AU 58. Fully struck and very near mint state. A scarce S-mint five that is rarely seen in strict mint condition.

664 NGC 1897-S AU 55. Sharply struck with bright surfaces that show a reddish accent of color around the peripheries. Trends \$900 in AU 50, \$1,750 in MS 60.

665 NGC 1897-S AU 55. A scarce and underrated late date S-mint five. Sharply struck with reddish patina surrounding the devices. Trends \$900 in AU 50, \$1,750 in MS 60.

666 NGC 1898-S MS 64. An important and obviously rare coin in this grade. This is a lovely piece that is well struck and shows rich golden-orange centers that are framed by a pronounced olive-green at the margins. Population: 6 in 64, 3 finer.

667 NGC 1899 MS 62. Sharply defined.

668 PCGS 1900 MS 62. Bright.

669 PCGS 1900 MS 62. Deep reddish color.

670 PCGS 1900 MS 62.

671 NGC 1900-S MS 60. Scarce in mint state.

672 NGC 1900-S MS 62.

673 NGC 1901/0-S MS 61. An early or intermediate die state with quite a bit of the 0 showing on the upper right of the second 1 in the date. Fully struck with complete mint luster throughout. Trends \$565 in MS 60, \$1,475 in MS 63.

674 PCGS 1901-S MS 63. Deep golden-orange color.

675 NGC 1901-S MS 63.

676 PCGS 1902-S MS 63. Lustrous and fully struck.

677 PCGS 1902-S MS 64. A lovely type coin that is minimally abraded and shows excellent mint luster and strong color. One small alloy spot is noted between stars one and two.

678 PCGS 1903-S MS 64. A remarkably clean coin that has satiny luster and is sharply defined throughout.

679 PCGS 1903-S MS 64. Fully struck with pinkish-rose color.

680 PCGS 1904 MS 63. Well struck.

681 PCGS 1905 MS 63. Full strike.

682 NGC 1905-S AU 53. Scarce, late date issue. Bright yellow-gold surfaces.

683 NGC 1905-S AU 55. Good portions of original luster remain, a trifle soft on the hair curls. Scarce.

684 NGC 1905-S AU 55. Well defined with much reddish color.

685 NGC 1905-S MS 61. A condition rarity among late date Liberty half eagles, exhibiting full luster and few appreciable marks. Population: 5 in 61, 7 finer.

686 NGC 1906-D MS 62. Lovely mint luster.

The January 1994 Orlando Sale

687 PCGS 1907 MS 62.

688 PCGS 1908 MS 63. Clean and fully struck, giving the appearance of a gem.

INDIAN HALF EAGLES

689 PCGS 1908 MS 62. Frosty yellow-gold surfaces.

690 PCGS 1908 MS 62.

691 NGC 1908 MS 62. Original and free of distracting marks.

692 PCGS 1908 MS 63. Quite clean for the grade, with the obverse clearly finer.

693 PCGS 1908-D MS 62.

694 PCGS 1908-D MS 63. Richly colored with frosty devices and only a few scattered abrasions holding down the grade.

695 PCGS 1908-D MS 64. Any \$5 Indian is a scarce commodity in such lofty condition, but the 1908-D drops off even more dramatically than all other dates in the series when jumping from MS 63 to MS 64. Population: 11 in 64, 2 higher.

696 NGC 1908-S AU 58. A nice slider Unc. that shows slight softness on the eagle's wing and a mark on the highpoint of the Indian's cheek.

697 NCI 1908-S MS 60.

698 PCGS 1909-D MS 62.

699 PCGS 1909-D MS 62.

700 PCGS 1909-D MS 62. Pinkish-orange overtones.

701 PCGS 1909-D MS 62.

702 PCGS 1909-D MS 62.

703 PCGS 1909-D MS 62.

704 NGC 1909-D MS 62. Bright, moderately abraded surfaces.

705 NGC 1909-D MS 62. Second verse, same as the first.

706 PCGS 1909-D MS 62.

707 NGC 1910 MS 63. Lustrous with nicely preserved surfaces.

708 NGC 1910-D MS 61. While not a significantly higher priced issue, the 1910-D is the second scarcest D-mint in the series behind only the rare 1911-D.

709 PCGS 1910-S MS 62. Boldly struck with pleasing color. Very close to 63 quality. The 1910-S, in the S-mint tradition of Indian half eagles, is quite scarce in mint state and rarely offered in grades higher than the present example. Population: 5 in 62, 6 higher.

710 NGC 1911-S MS 60. Toned here and there in rose-violet shades, with a decent strike and fairly indistinct mintmark. Scarce.

711 NGC 1911-S MS 61. Original and frosty, with considerably sharper detail than the preceding coin. While the second most common S-mint in mint state, the 1911-S can easily be

The January 1994 Orlando Sale

classified as a scarce coin in uncirculated condition.
Population: 14 in 61, 14 higher.

- 712 NGC 1911-S MS 61. A mate to the coin just offered and, in fact, from the same original source. Check these out if you're looking for an honest unc. 1911-S.
- 713 ANACS 1911-S MS 61.
- 714 PCGS 1911-S MS 62. A strong strike overlaid in rich orange-gold hues, with few appreciable marks. Much finer than the typical uncirculated example of this date and considerably less expensive than the few superior pieces.
- 715 NGC 1912 MS 62. Bright luster.
- 716 PCGS 1912 MS 62.
- 717 PCGS 1913 MS 63. Clean, well frosted surfaces, struck in yellow-gold and particularly choice on the obverse.
- 718 PCGS 1913-S MS 60. Lustrous and, except for the mintmark, very sharp, with reddish-gold accents in the protected areas. Most 1913-S half eagles saw extensive wear and, today, even average mint state pieces are very scarce.
- 719 PCGS 1914 MS 63. An especially clean example that could easily pass for a higher grade coin were it not for a hint of flatness on the Indian's cheek. As a date, the 1914 sells at a type price although at least two or three times more scarce than the majority of common-date issues.
- 720 NGC 1914 MS 64. One of the nicest 1914 half eagles we've seen. The surfaces display a pleasing, frosty appearance and are practically free of noticeable coin-to-coin contact. A great looking type coin and a slightly better date as well. Population: 15 in 64, 1 higher.
- 721 NGC 1914-D MS 62. Frosty and bright.
- 722 NGC 1914-S MS 61. Another of the true condition rarities in this popular series. Very well struck for the issue with bright, relatively unmarred surfaces. Population: 3 in 61, 1 higher.
- 723 PCGS 1915 MS 64. Mint state examples of this issue generally come nice and this piece is no exception. Both sides offer razor sharp definition and are highlighted in lovely reddish-gold patina.
- 724 PCGS 1916-S MS 62. Quite frosty and, while moderately abraded, giving the appearance of a higher grade coin. The 1916-S is the most obtainable San Francisco half eagle of this type, with most specimens in the MS 61 to MS 62 grade range.

EARLY EAGLE

- 725 ANACS 1796 AU 55. B. 1-A. Much scarcer than its first year counterpart, despite a modestly lower mintage (4,146 pcs.). This piece, struck in yellow-gold, has terrific eye appeal, boasting semi-reflective fields and boldly struck devices. No noticeable adjustment marks or other distractions are to be found on this lovely Small Eagle ten.

LIBERTY EAGLES

- 726 PCGS 1842 AU 55. Large Date. The Large Date is somewhat scarcer than its Small Date counterpart of this year, and is a very elusive coin in AU condition, termed "prohibitively rare

AU" by Breen. This piece is very sharply defined throughout and shows bright yellow-gold surfaces that are minimally abraded. Undoubtedly one of the finest examples known of this scarce issue. Trends \$3,750 in AU 50, \$16,000 in MS 60.

- 727 PCGS 1842-O XF 45. A scarce O-mint issue but not a condition census issue in this grade, and therefore much more affordable than an AU piece. As usual, this coin shows soft details on the hair curls but is well defined on the reverse. There are several small, but noticeable, facial blemishes on Liberty. Trends \$925 in XF 40, \$4,000 in AU 50.
- 728 NGC 1843 AU 50. Breen-6861, triple date. A difficult date in all grades and extremely elusive in AU condition. Akers was not able to find an auction appearance of an uncirculated coin in his multi-decade survey of gold auctions, and none have been graded to date by either of the major certification services. This piece shows only slight softness in the centers and there is a light accent of reddish color around the devices. The fields retain some of their original profile sheen and there are several noticeable abrasions scattered across each side. Listed as "very rare" by Breen, and rarer than the double date. Trends \$4,450 as a double date.
- 729 NGC 1843-O XF 40. A moderately scarce O-mint ten, this is a typical coin for the issue with the usual well marked surfaces. Softly defined in the centers and showing bright color overall. Trends \$685.
- 730 ANACS 1843-O XF 45. Light in color with no overly distracting marks. A more elusive issue than is often believed because of its rather substantial mintage. Trends \$685 in XF 40, \$2,100 in AU 50.
- 731 PCGS 1845 XF 40. Evenly worn with soft orange-gold accents. An elusive P-mint ten that generally is only available in VF or XF condition and is extremely rare any finer. Trends \$2,050.
- 732 PCGS 1845 XF 45. A difficult coin in all grades, this date is prohibitively rare above the XF level. This piece is reasonably well struck and shows myriad contact marks on each side, the most noticeable one being a pair on the neck of Liberty. Trends \$2,050 in XF 40, \$8,750 in AU 50.
- 733 NGC 1845 XF 45. Remarkably, a third example of this rare early issue, one of just 26,153 pieces struck. Bright in the appearance, this specimen displays ample luster about the devices and only a few stray marks.
- 734 NGC 1845-O XF 40. A somewhat scarcer O-mint ten and one that is not often found in XF condition. This piece shows innumerable small marks on each side and is quite well struck for the issue. Trends \$900.
- 735 PCGS 1846-O XF 40. A very scarce No Motto ten and more elusive than the four O-mint issues that precede it. In XF it is considered to be an R.6 coin and is very rare any finer. Typical for the issue, this piece shows the usual softness of detail and numerous small abrasions with a couple of larger facial marks. Trends \$1,500.
- 736 NGC 1848 XF 45. A scarce P-mint ten that is much more elusive than its mintage of 145,484 pieces might indicate. Softly detailed on the highpoints with the usual number of small abrasions on each side. Trends \$600 in XF 40, \$1,650 in AU 50.
- 737 NGC 1850 Small Date XF 45. Bright, minimally worn surfaces. By far the scarcer of the two 1850 varieties, with

The January 1994 Orlando Sale

- pieces grading above AU virtually unobtainable. Trends \$1,850 in XF 40, \$4,900 in AU 50.
- 738 NGC 1851-O XF 40. One of the more commonly seen No Motto tens from the New Orleans mint. A bit baggy in appearance with remnants of prooflike luster on the reverse.
- 739 PCGS 1851-O XF 40. Distinctively different from the preceding coin, being fairly clean for the grade and toned in splashes of pumpkin-orange.
- 740 NGC 1852 AU 58. Only moderately scarce as a date but a condition rarity in AU or better. This piece is close to mint state, missing just a bit of luster in the fields, and is quite a presentable coin whose only flaw seems to be a softness of strike. Trends \$1,275 in AU 50, \$10,500 in MS 60.
- 741 PCGS 1854-O Small Date XF 45. Bright and well struck with moderate abrasions. The more common of the two 1854-O varieties, but still a scarce coin in XF or better. Trends \$1,400 in XF 40, \$7,000 in AU 50.
- 742 NGC 1854-S XF 45. One of the more common dates of the No Motto type, this piece is very choice for the grade with only slight striking softness noted on each side. Trends \$550 in XF 40, \$3,100 in AU 50.
- 743 NGC 1854-S AU 50. While a common date in the No Motto type, even the '54-S is difficult to locate in strict AU condition. This is the first we have offered in six months. Bright yellow-gold color and softly struck on the obverse with a few more obvious marks on that side as well. Trends \$3,100.
- 744 NGC 1855 MS 60. Frosty and pleasing to the eye, with an ample strike and bright satiny luster. The 1855 is not uncommonly scarce among No Motto tens, but its importance as a type coin is substantial. Population: 3 in 60, 4 higher.
- 745 PCGS 1856-S VF 30. Clean for the grade and just a bit lackluster to qualify as an XF.
- 746 NGC 1856-S XF 45. The '56-S is the second most common S-mint before 1879, but still can be considered a scarce coin when one considers the date in terms of absolute rarity. An average coin for the grade with bright golden-orange color and several more obvious marks scattered about. Trends \$650 in XF 40, \$2,300 in AU 50.
- 747 NGC 1857-S XF 45. Considerably scarcer than the 1854-S and '56-S, the typical '57-S is low grade and only seen infrequently. This is the first we have sold in well over a year. The surfaces are bright overall and there are a few larger and somewhat distracting blemishes on the obverse. Softly defined on the obverse also. Trends \$825 in XF 40, \$3,900 in AU 50.
- 748 PCGS 1858 VF 30. The 1858 ten is one of the legendary rarities of the series. Its fame has been known for many decades. Akers estimates that only 25-30 pieces exist in all grades while Breen halves that estimate and reckons that perhaps only 12-15 pieces survive. The 1858 is also an important condition rarity, being seldom located above the VF-XF level. This piece shows even wear on the highpoints of the devices with much reddish color throughout. The two most noticeable marks (mentioned for pedigree purposes) are a series of milling marks in the left obverse field below the chin of Liberty and a long, thin scratch on the reverse extending from the upper arrow to the first A in AMERICA. Of the greatest importance to the specialist in this popular series. Trends \$5,600 in VF 20, \$12,000 in XF 40.
- 749 NGC 1861 AU 55. Bright surfaces and well struck.
- 750 NGC 1868 XF 45. A very scarce date in all grades and virtually non-existent above the Choice XF level. This piece shows good striking details and there are noticeable bits of mirrored reflectivity in the fields surrounding the stars and other protected areas of the devices. Trends \$1,800 in XF 40, \$7,500 in AU 50.
- 751 NGC 1870 XF 45. Another rare Coronet ten, this piece has a very low mintage of only 3,990 business strikes. The 1870 is rare in all grades with pieces grading higher than XF of the greatest importance and rarity. This piece has a number of small abrasions on each side and there is a remnant of a prooflike finish that can still be seen on each side. Slightly soft in strike on the highpoints of the design and showing light reddish color. Trends \$1,575 in XF 40, \$7,000 in AU 50.
- 752 NGC 1874 AU 58. A bold strike with flashes of pinkish-gold color on both sides. Occasionally seen in lesser grades, the 1874 eagle starts thinning out in AU condition and is truly a scarce coin at the mint state level. Trends \$550 in AU 50, \$2,800 in MS 60.
- 753 NGC 1878 AU 55. Highly lustrous with delicate pinkish-gold highlights about the peripheral devices. Akers calls this issue "very scarce in AU condition" and this piece is every bit of that. Trends \$425 in AU 50, \$2,500 in MS 60.
- 754 PCGS 1880-CC XF 45. A scarce CC ten that is seldom seen finer than the present specimen. Only 11,190 pieces were struck. Well struck with good remaining luster surrounding the outer devices. Trends \$1,075 in XF 40, \$3,250 in AU 50.
- 755 NGC 1881-CC AU 50. A moderately scarce CC ten and one that is rarely seen above the VF-XF grade level. This is an attractive and original coin that has much deep reddish color and good portions of luster remaining. Trends \$1,250.
- 756 NGC 1881-O AU 50. A rare O-mint, one of just 8,350 pieces struck, with most survivors in the VF to XF grade range. This piece, while moderately abraded, is very sharp and displays a good bit of the original luster. Trends \$2,850.
- 757 NGC 1881-S MS 61. Vibrant, fully struck surfaces with the usual number of light abrasions in the fields. A scarcer date that rarely comes finer. Trends \$350 in MS 60.
- 758 PCGS 1882 MS 60.
- 759 NGC 1882-CC XF 45. A rare, low mintage CC ten, of which there were only 6,764 pieces struck. This coin is about as fine an example as one is likely to locate anytime soon as AU pieces are very rare and expensive. This appears to be an original coin that shows much reddish color around the devices, and only slight softness of central details. Trends \$2,100 in XF 40, \$5,500 in AU 50.
- 760 NGC 1882-S MS 61. A scarcer S-mint eagle at the mint state level. Lustrous with good color and no singularly distracting marks.
- 761 NGC 1884 AU 53. A trifle soft on Liberty's curls, but otherwise sharp. Some dark verdigris is noticed about the stars, lettering and eagle's neck. Scarce issue. Trends \$435 in AU 50.
- 762 NGC 1885 MS 61. Fully struck. A scarcer P-mint issue in mint state. Population: 16 in 61, 4 higher.

The January 1994 Orlando Sale

- 763 PCGS 1885-S MS 60. Appealing color, if a trifle baggy on the obverse. A not-so-common common date.
- 764 NGC 1886 AU 53. A scarcer P-mint issue and one of four pieces in the AU grade range.
- 765 NGC 1886 AU 53. Bright and lustrous.
- 766 PCGS 1886 AU 58. Frosty, fully struck features with just a whisper of rub on the highpoints. Probably a more desirable coin than several of the lesser grade mint state examples of this scarce issue.
- 767 NGC 1886 AU 58. Rich reddish-gold overtones.
- 768 NGC 1886 MS 61. A pleasing example of this low-mintage, condition rarity. This coin is a pleasing as many 62 and 63 coins of this type. Nice original color with minor abrading.
- 769 NGC 1887 AU 50. A bright, moderately abraded specimen, one of 53,680 pieces struck.
- 770 NGC 1887 AU 50. A bit cleaner overall, but exhibiting a faint pin scratch down Liberty's portrait. Scarce.
- 771 NGC 1887 AU 53. A sharp, frosty coin that easily outclasses the other two examples of this more elusive P-mint.
- 772 NGC 1888 AU 50. A bit scuffy in the fields, but with adequate luster for this underappreciated date.
- 773 NGC 1888 AU 55. Bright semi-prooflike surfaces, very nearly of mint state quality. Trends \$340 in AU 50, \$1,400 in MS 60.
- 774 NGC 1889-S MS 62. Semi-prooflike with only a few well scattered surface marks. Population: 14 in 62, none higher.
- 775 PCGS 1890-CC AU 58. A scarcer CC ten and a coin that is rarely seen in strict mint condition, making coins such as this one of great importance to collectors. This is very close to mint state with good luster and a strong strike in most areas. Trends \$750 in AU 50, \$2,750 in MS 60.
- 776 PCI 1894-O XF 45.
- 777 NGC 1896-S XF 45. A scarcer late date ten. Much reddish color surrounds the devices, weakly struck on the hair curls. Trends \$340 in XF 40, \$1,000 in AU 50.
- 778 NGC 1896-S AU 53. Well struck except on the hair curls of Liberty and showing no obvious marks. There are a couple of grease stains (as struck) on the reverse rim at 4 o'clock. Trends \$1,000 in AU 50.
- 779 NGC 1897-S AU 58. A scarce, late date S-mint ten that is quite elusive in AU or mint state. This piece shows one obvious mark on the cheek of Liberty. Trends \$350 in AU 50, \$2,300 in MS 60.
- 780 NGC 1900 MS 62. Good color, just a little baggy.
- 781 NGC 1900 MS 64. Fully struck with clean, problem-free surfaces and strong satiny luster.
- 782 PCGS 1901 MS 63. Fully struck with an attractive two-toned color scheme.
- 783 NGC 1901 MS 63.
- 784 NGC 1906-S MS 61.

- 785 PCGS 1907 MS 62. Full strike.

INDIAN EAGLES

- 786 PCGS 1907 Wire Rim MS 64. Generally considered a pattern, Wire Edge tens were the closest the mint came to reproducing the ten-dollar design as originally conceived by Augustus Saint-Gaudens and Theodore Roosevelt. Only 500 pieces were struck and examples always have a bright, satiny appearance because of the myriad die polishing marks seen on each side. Well brought up in all areas, the surfaces show only a few small handling marks and luster grazes, mostly in the fields and the color is a bright, even yellow-gold. Trends \$16,000.
- 787 PCGS 1907 No Motto MS 62.
- 788 PCGS 1907 No Motto MS 62. Sharply struck.
- 789 NGC 1907 No Motto MS 63. Bright yellow-gold mint luster.
- 790 NGC 1908-D Motto MS 63. A very scarce and underrated issue in mint condition, the '08-D Motto is seldom seen in Choice condition and is almost never located any finer. This piece is well struck with attractive satin-like surfaces and light orange-gold color. Population: 4 in 63, 2 finer.
- 791 ANACS 1908-S AU 58.
- 792 NGC 1909 MS 63. The 1909 is one of the scarcer P-mint ten Indians and is quite elusive in the better grades of mint state. This well struck piece shows several small marks and luster grazes in the fields, none of which are singularly distracting. Trends \$2,000.
- 793 NGC 1909-D AU 58. Good color. Scarce and underrated.
- 794 NGC 1910 MS 62. Frosty golden-orange surfaces.
- 795 NGC 1910-D MS 64. Fully struck and quite clean overall with granular surfaces. There is one long luster graze in the left reverse field that keeps the coin in the MS 64 category.
- 796 ANACS 1910-S MS 60.
- 797 PCGS 1910-S MS 62. A scarce coin in mint state, this piece has nice luster and is well struck with a few scattered abrasions. Trends \$1,300 in MS 60, \$4,900 in MS 63.
- 798 PCGS 1911 MS 63. Well struck with matte-like surfaces.
- 799 NGC 1912 MS 62. Bright mint luster.
- 800 ANACS 1912-S AU 55. Very scarce in mint state and a good value in nice AU condition. A clean coin for the grade with much luster remaining. Trends \$475 in AU 50, \$900 in MS 60.
- 801 NGC 1913-S AU 53. A low-mintage issue that is decidedly scarce in uncirculated.
- 802 NGC 1913-S AU 58. Very scarce in mint state, and a good buy as a high-end AU.
- 803 NGC 1913-S AU 58. An affordable example of a date that is downright tough in full mint state. As close as you can get without actually being there.
- 804 NGC 1915 MS 63. Good mint luster but kept from grading higher by the presence of a few marks scattered across each side.

The January 1994 Orlando Sale

- 805 PCGS 1920-S MS 62. The 1920-S ten-dollar is one of the major rarities in 20th century U.S. gold. Breen thought it rarer than even the 1930-S and the 1933. This piece is fairly typical of the few mint state pieces that do exist: light bagging marks from long residence in bank cash reserves and weakly struck in the centers, especially at TY on the obverse. Bright, lustrous surfaces overall. Population: 2 in 62, 6 finer.
- 806 PCGS 1926 MS 62.
- 807 PCGS 1926 MS 62.
- 808 PCGS 1926 MS 62. Rich golden-orange color.
- 809 NGC 1926 MS 62. A nice looking coin for the grade.
- 810 PCGS 1926 MS 63. Lovely variegated color.
- 811 PCGS 1926 MS 63. Flashy mint luster.
- 812 PCGS 1926 MS 64. Deep reddish tinted color and displaying radiant luster beneath. An incredibly lovely coin for the grade.
- 813 PCGS 1926 MS 64. Fully struck with only the most trivial abrasions on either side.
- 814 PCGS 1932 MS 62.
- 815 PCGS 1932 MS 63. Well struck with slight color.
- 816 PCGS 1932 MS 63. Deep reddish-orange color.
- 817 PCGS 1932 MS 63. A very nice looking coin for the grade with a remarkably clean obverse.
- 818 PCGS 1932 MS 64. Sharply struck with light color and a few small abrasions.

PROOF INDIAN EAGLE

- 819 NGC 1912 PR 63. In spite of 83 proofs having been struck, the 1912 is the scarcest of all matte proof tens. Apparently there was a very high attrition rate for this date as only 15-20 pieces are estimated to exist today. NGC has only certified 4 proofs. This piece shows a number of small shiny spots on the matte finish, but overall this is quite a presentable example of this rarely seen proof issue.

LIBERTY DOUBLE EAGLES

- 820 NGC 1850 AU 58. Popular as a first year of issue, this piece has almost complete mint luster and is sharply defined in all areas. A very pleasing example.
- 821 NGC 1851-O AU 55. The most common of the O-mint twenties, but in a higher grade than most. The surfaces are clean, boldly struck, and just a trifle bright on the reverse. Attractive orange-gold toning frames the reverse.
- 822 NGC 1853 AU 58. Well struck with no objectionable marks. A nice, near-mint state Type One twenty.
- 823 NGC 1854 AU 55.
- 824 NGC 1855-S AU 55. A fairly scarce Type One S-mint that is quite elusive in AU condition. Well struck with a few field

marks on the obverse but quite clean on the reverse. Trends \$1,175 in AU 50, \$10,500 in MS 60.

- 825 NGC 1860 AU 50. An original coin with much deep red and even charcoal-gray outlining the devices. Reasonably well struck for the type. Trends \$875.
- 826 NGC 1861 AU 55. Much luster remains on this common date Type One.
- 827 ANACS 1861 AU 55. Lightly abraded with much remaining luster.
- 828 NGC 1863-S AU 55. A scarce coin in AU, this is an original piece with significant portions of deeper reddish color surrounding the devices. Trends \$1,250 in AU 50, \$8,500 in MS 60.
- 829 NGC 1865 AU 53. A scarce Type One that is seldom seen in AU or better condition. This is a very nice coin for the grade that is sharply struck throughout and does not show the heavy abrasions that usually accompany Type Ones in circulated grades. Trends \$1,075 in AU 50.
- 830 NGC 1865-S AU 55. While a relatively common coin in lower grades, the 1865-S is conditionally scarce in AU or better grades. This is an attractive coin with even reddish color over both sides and only a few small, insignificant abrasions. Trends \$1,250 in AU 50, \$10,250 in MS 60.
- 831 NGC 1866-S Motto AU 50. A very scarce issue that is an important condition rarity as well, with the average coin only grading a mid-range VF. This is a solid AU coin but there are a couple of larger marks on the obverse that are noticeable. Trends \$3,500.
- 832 NGC 1866-S Motto AU 58. Remarkably, a second and even finer example of this most elusive S-mint double eagle. The surfaces exhibit a lovely original golden color and only on the obverse show signs of modest wear, being almost completely lustrous throughout. Both major grading services combined have certified only a single mint state example (PCGS MS 61), putting this most attractive specimen clearly among the finest known. Trends \$3,500 in AU 50 and \$15,000 in MS 60.
- 833 PCGS 1867 AU 58. Fully struck with bright, shimmering mint luster and showing a few more noticeable marks in the lower right obverse field. Looks uncirculated. Trends \$625 in AU 50, \$1,350 in MS 60.
- 834 NGC 1867-S XF 45. A rare and desirable coin that also represents an excellent value in Choice XF condition. XF coins are scarce and most examples are heavily marked. This piece has bright yellow-gold color and only a few noticeable marks, all on the obverse. Well struck with much luster still adhering to the reverse. Trends \$850 in XF 40, \$2,300 in AU 50.
- 835 ANACS 1867-S XF 45. Very scarce in all grades, this piece is noticeably bagmarked and displays an outline of reddish color surrounding the devices. Trends \$850 in XF 40, \$2,300 in AU 50.
- 836 PCGS 1867-S AU 58. There is just a bit of luster missing from the fields and over the highpoints of the devices, keeping this piece in the high-end AU category. The surfaces have a rich reddish-coppery color and there are few of the heavy abrasions this issue is well known for. There are a couple of grease stains (as struck) at the top of the obverse. Trends \$850 in AU 50, \$2,300 in MS 60.

The January 1994 Orlando Sale

- 837 NGC 1868-S XF 45. Usually seen no finer than VF (and heavily bagmarked at that), this is an above average piece that shows a few larger abrasions on the obverse and much reddish color throughout. Trends \$810 in XF 40, \$1,775 in AU 50.
- 838 NGC 1868-S AU 50. In AU condition this issue is a significant condition rarity; only two coins have been certified in mint condition (one by each major service). This piece is somewhat softly struck, but there is significant luster remaining in the fields and on the devices in the more protected areas. Lightly marked. Trends \$1,775.
- 839 PCGS 1868-S AU 55. A rare date in AU, this piece has much mint luster still clinging to the devices. Well struck in most areas and showing only the average number of bagmarks for a coin of this grade. Trends \$1,775 in AU 50, \$14,750 in MS 60.
- 840 NGC 1868-S AU 58. An important condition rarity, this piece at the AU 58 level is tied with several other coins as the second finest known. Better struck than usual, this piece has much bright mint luster remaining, and only smaller marks scattered across the surfaces. Trends \$1,775 in AU 50, \$14,750 in MS 60.
- 841 PCGS 1869-S AU 53. Above average strike with good portions of mint luster remaining and few marks apparent. Trends \$1,450 in AU 50, \$7,900 in MS 60.
- 842 NGC 1869-S AU 53. Well struck on several of the stars and showing bright surfaces overall.
- 843 NGC 1869-S AU 55. A much scarcer and more desirable grade for this issue, normally only seen in XF and lower condition. Reasonably well struck, the surfaces show a deep reddish patina, and there is one mark of note, a long scratch from the bridge of the nose into the left obverse field. Trends \$1,450 in AU 50, \$7,900 in MS 60.
- 844 NGC 1870 AU 55. An important and very elusive condition rarity in the Type Two series, the current population data from the major services shows that only 4 pieces have been certified in mint condition between them both. This is a well struck example that shows much remaining luster and only a few larger field marks, the most apparent of which are a pair on the reverse below the eagle's right wing. Trends \$2,000 in AU 50, \$8,750 in MS 60.
- 845 NGC 1871-S AU 55. Scarce in AU with most survivors grading only VF or XF. This brightly lustrous coin has a number of marks scattered across each side. Trends \$625 in AU 50, \$6,100 in MS 60.
- 846 PCGS 1873 Closed 3 VF 35. The scarcer of the two varieties but a more affordable coin in this grade. There are several large and rather unsightly marks on the obverse that bear mentioning. Trends \$675 in VF 20, \$875 in XF 40.
- 847 PCGS 1873 Closed 3 AU 53. Significantly scarcer than its Open 3 counterpart in AU condition, this is a bright and attractive example that retains much mint luster. The most detracting feature is a nick on the nose of Liberty. Trends \$1,500 in AU 50.
- 848 ANACS 1873 Open 3 MS 60. Well struck and light in color with a few small marks on the obverse that are consistent with the grade. Trends \$725.
- 849 NGC 1873 Open 3 MS 62. Fully lustrous with a few obverse marks. A common Type Two, even in mint condition.

- 850 NGC 1873-S MS 60. Closed 3. Well struck with bright, semi-profile fields. A slightly scarcer Type Two issue in mint condition. Trends \$2,400.
- 851 NGC 1874-S MS 60. A fully lustrous specimen with an appealing yellow-gold patina about the borders. Fairly scarce at the mint state level. Trends \$1,850.
- 852 NGC 1875-CC MS 60. While a common date relative to other Carson City twenties, the '75-CC is in much demand as a CC type coin, due in large part because it can occasionally be located in mint condition. This is a fully lustrous piece that shows a number of small abrasions, especially on the obverse, that are entirely consistent with the grade. Trends \$2,500.
- 853 NGC 1875-S MS 60. Well abraded on the obverse with pinkish-gold overtones. Trends \$900.
- 854 NGC 1876-S MS 61. Original color with a single cut on Liberty's cheek precluding a higher grade.
- 855 NGC 1876-S MS 61. Sharply struck with a bit of light staining along the obverse edge.
- 856 PCGS 1876-S MS 62. Highly lustrous and close to select quality. Only 4 coins have been graded higher by PCGS.
- 857 NGC 1873-S Open 3 AU 55. The scarcer variety for the issue. Bright surfaces that are a trifle scuffy on the obverse and much choicer on the reverse. Trends \$875 in AU 50, \$7,850 in MS 60.
- 858 NGC 1873-S Open 3 AU 58. Definitely the scarcer of the two varieties, and a difficult coin to locate in higher grades. This piece is well struck and shows good remaining luster, but is peppered across both sides with numerous small marks. Trends \$875 in AU 50, \$7,850 in MS 60.
- 859 NGC 1873-S Open 3 MS 60. Original and frosty with a generous amount of obverse abrasions, none too serious. A common coin in AU, but mint state pieces are scarce. Trends \$2,400.
- 860 NGC 1877 MS 61. Bright, fully lustrous surfaces with four or five mentionable marks on the obverse. First year of type.
- 861 NGC 1877-S MS 60. The first of four average uncirculated pieces, all with the majority of marks concentrated on the obverse.
- 862 NGC 1877-S MS 60.
- 863 NGC 1877-S MS 60.
- 864 NGC 1877-S MS 60.
- 865 NGC 1878 AU 58. Fully lustrous and never circulated, but bagmarked on the obverse.
- 866 PCGS 1878 AU 58. Probably never circulated, but a scrape on the jaw of Liberty is noticeable.
- 867 NGC 1878-S MS 60.
- 868 NGC 1878-S MS 60. A dark streak appears just above and behind the chin.
- 869 NGC 1878-S MS 61. Lustrous, though there are numerous tiny bagmarks consistent with the grade.

The January 1994 Orlando Sale

- 870 NGC 1880-S AU 53. A deep scratch behind the nose, otherwise bright and lustrous.
- 871 NGC 1880-S AU 55. A light trace of circulation.
- 872 NGC 1880-S AU 58. Quite close to mint state, and scarce. NGC has certified fewer than a dozen pieces in mint state.
- 873 ANACS 1880-S MS 60.
- 874 NGC 1881-S MS 60. Typical heavy bagmarks, but quite scarce in higher grades.
- 875 PCGS 1882-S AU 50.
- 876 PCGS 1882-S AU 55. Attractive color and luster.
- 877 NGC 1882-S MS 60. Numerous small bagmarks. What did you expect from a 60?
- 878 NGC 1884-CC AU 50. Richly colored with the obverse peppered in small marks.
- 879 NGC 1884-CC MS 60. One of the more common Carson City twenties, and always a popular coin with collectors because of its widespread use as a type coin. Fully struck, the surfaces are a light yellow-gold with numerous small abrasions scattered mostly across the obverse. Trends \$4,250.
- 880 PCGS 1888 MS 60. Some copper stains.
- 881 NGC 1888 MS 60.
- 882 NGC 1888 MS 60.
- 883 NGC 1888 MS 60.
- 884 NGC 1888 MS 61. A bit dull.
- 885 NGC 1889 MS 60. Heavy copper staining.
- 886 NGC 1889-CC AU 55. A median rarity Carson City twenty, only minimally abraded and most attractive for an AU. Trends \$1,450 in AU 50, \$6,200 in MS 60.
- 887 PCGS 1889-CC AU 58. Semi-prooflike and just a whisper of rub on the obverse from mint state status. Flashy and quite scarce in high grade.
- 888 NGC 1890-S MS 60. Five piece lot. (Total: 5 coins)
- 889 PCGS 1890-S MS 60. Decent for the grade.
- 890 NGC 1890-S MS 61. Light marks with good color.
- 891 NGC 1890-S MS 61. Vertical scrape on the cheek.
- 892 PCGS 1890-S MS 62. Each service has graded only one piece higher. And this one is premium quality. Worthy of close inspection and a premium bid.
- 893 NGC 1891-S MS 62. Clean fields.
- 894 PCGS 1892-CC MS 60. Frosty yellow-gold surfaces, fully lustrous on both sides but with particular vibrancy on the reverse. The 1892-CC twenty is very scarce in uncirculated, with almost all known specimens of average quality. Population: 7 in 60, 6 higher (none above MS 61).

- 895 NGC 1894 MS 62. Boldly struck, satiny, and quite close to 63 quality.
- 896 NGC 1894-S MS 62. Bright luster with few appreciable marks. A more difficult S-mint twenty that falls off dramatically in population above MS 62.
- 897 NGC 1895 MS 62. Original and nicely frosted on the devices.
- 898 PCGS 1895-S MS 62. Flashy appearance.
- 899 NGC 1895-S MS 62. Mildly prooflike with only a few stray obverse marks. Similar in scarcity to the '94-S.
- 900 NGC 1896 MS 62. Pleasing color and luster.
- 901 NGC 1896 MS 62. Especially pleasing for the grade with good luster and color.
- 902 NGC 1896 MS 63. Rich color with superb luster.
- 903 PCGS 1896-S AU 58.
- 904 NGC 1896-S MS 63. NGC has graded only one piece finer. Immaculate fields with only one distracting mark.
- 905 NGC 1897 MS 63. Three piece lot. (Total: 3 coins)
- 906 NGC 1898 MS 60. No major marks.
- 907 NGC 1898 MS 61.
- 908 NGC 1898 MS 63. Frosty luster and pleasing.
- 909 NGC 1898-S MS 63. Clean, mark-free surfaces.
- 910 NGC 1899-S MS 62. Sharp and lustrous.
- 911 PCGS 1900 MS 63. A few minor obverse scuffs.
- 912 PCGS 1900 MS 64. Bright, with excellent luster and eye appeal.
- 913 PCGS 1900-S MS 61. Good color and overall appearance for the grade.
- 914 NGC 1900-S MS 62.
- 915 NGC 1900-S MS 62.
- 916 PCGS 1901 MS 65. A wonderfully preserved specimen, golden-orange in color and displaying a clean, frosty appearance. Next to the 1907-D double eagle, the 1901 is perhaps the most consistently choice issue in the series.
- 917 ANACS 1904 MS 62. Prooflike.
- 918 PCGS 1904 MS 63. Clean surfaces.
- 919 PCGS 1904 MS 63.
- 920 PCGS 1904 MS 63. Rich color.
- 921 PCGS 1904 MS 63. Small iridescent spot on reverse.
- 922 PCGS 1904 MS 63. Attractive luster.
- 923 PCGS 1904 MS 63.
- 924 PCGS 1904 MS 63. Deep gold color.

The January 1994 Orlando Sale

- 925 PCGS 1904 MS 64. Attractive color.
- 926 PCGS 1904 MS 64. Average for the grade.
- 927 PCGS 1904 MS 64. Very close to gem quality.
- 928 PCGS 1904 MS 65. Shimmering luster with an almost total absence of surface marks.
- 929 PCGS 1904 MS 65. A second gem example, similar not only in quality, but in appearance as well.
- 930 PCGS 1904 MS 65. A great example for the type. Gold has always been one of the favorites of investors and speculators when the market goes up. Pick up this gem at today's reasonable level.
- 931 PCGS 1904-S MS 63. Numerous tiny light obverse scratches.
- 932 PCGS 1905 AU 53. Scarcer date, one of just 59,011 pieces struck.
- 933 PCGS 1905 MS 60. Scattered obverse marks, some severe, and specks of coppery-gold color most noticeable on the reverse. Mint state pieces of this issue are quite scarce and usually only average quality. Trends \$1,950.
- 934 NGC 1905 MS 60. Another pleasing coin for the grade. You don't normally find MS 60 gold with any class. This lot is an exception. Nice color and luster.
- 935 PCGS 1906-S MS 62. Crisply struck with appealing, original color.
- 936 PCGS 1906-S MS 62. Satiny and less abraded than most of this grade.
- 937 NGC 1906-S MS 63. Select quality for this conditionally scarce S-mint. Population: 21 in 63, 1 higher.
- 938 PCGS 1907 MS 62. Scattered light marks consistent with the grade.
- 939 NGC 1907 MS 64. Deep rich color.

SAINT-GAUDENS DOUBLE EAGLES

- 940 PCGS 1907 High Relief MS 63. Wire Rim. Struck in yellow-gold with a bright, satiny appearance. There are no serious distractions, just a bit of stacking friction noticed about the reverse periphery.
- 941 PCGS 1907 Arabic Numerals MS 62. Popular first year of issue. Great color and luster, though some bagmarks preclude a higher grade.
- 942 NGC 1907 Arabic Numerals MS 63.
- 943 NGC 1908-D No Motto MS 64. Boldly struck with distinctive peripheral orange-gold patina. A scarce issue in near gem condition.
- 944 NGC 1908-D No Motto MS 65. A pristine example, well struck on the highpoints and almost totally void of coin-to-coin contact. Strict gem '08-D No Motto double eagles are of the utmost rarity, with the typical mint state piece grading MS 63 at best. Population: 5 in 65, none higher. Trends \$16,500.

- 945 PCGS 1908 Motto MS 63. Pleasing color with only a few light, well scattered surface marks. Fairly scarce in all mint state grades and virtually never seen finer than the present example.
- 946 NGC 1908-D Motto MS 63. Fully struck with no large or distracting abrasions. Scarce.
- 947 NGC 1909/8 MS 61. A decent strike with a bright, semi-prooflike finish to the reverse. Scarce in mint state and always popular as one of the few 20th century gold overdates.
- 948 NGC 1909-D AU 55. A pleasing, near mark-free example.
- 949 PCGS 1909-S MS 63. Frosty with appealing, original color.
- 950 NCI 1910 MS 65. A very acceptable coin for the grade.
- 951 NGC 1910-D MS 63. Choice for the grade and a welcome addition to any set in the process of being completed.
- 952 NGC 1911 MS 62. Good eye appeal for the grade.
- 953 NGC 1911 MS 63. A bit dull.
- 954 PCGS 1911-S MS 62.
- 955 NGC 1911-S MS 63. Original with a slight pinkish-gold tint.
- 956 NGC 1911-S MS 64. Satin-like surfaces that display minimal marks and are somewhat brighter on the reverse. A scarcer issue in near gem condition.
- 957 PCGS 1912 MS 62. Highly lustrous and showing less than the usual quota of surface marks for this better date.
- 958 NGC 1913 MS 62. Go ahead, start putting together that BU set of Saints you've been talking about for the last five years. Start with this coin and enjoy the challenge.
- 959 PCGS 1913-S MS 63. The obverse on this elusive, low-mintage date is especially choice and only a few minor scuffs on the eagle limit the grade. Population: 26 in 63, 7 higher (none above MS 64).
- 960 NGC 1916-S MS 64. A borderline gem that, in terms of eye appeal, certainly meets or exceeds all government standards.
- 961 PCGS 1920 MS 62. A less frequently seen date.
- 962 PCGS 1920 MS 62. Great eye appeal for the grade. Unquestionably premium quality.
- 963 PCGS 1922-S MS 62. Fairly clean for the grade with a couple of distinctive reddish-gold spots on either side.
- 964 NGC 1924 MS 65. Lovely golden-orange color in the recessed areas.
- 965 PCGS 1924-S MS 62. Not completely struck up, but showing beautiful reddish-orange color with steely-blue intermixed. Excellent luster and definitely one of the finer MS 62 coins one is ever likely to find. A very scarce issue that rates a low R.6 in this grade.
- 966 PCGS 1925-D MS 63. Fully frosty with bright luster and few appreciable surface marks. Another of the mass-melted branch mints that has been found only in modest numbers in European gold hoards. Akers ranks this issue 16th out of the 54 Saint-Gaudens dates.

The January 1994 Orlando Sale

- 967 NGC 1926-S MS 64. Vibrant golden-orange surfaces with the only mentionable mark being a shallow scuff in the right obverse field. Scarce in all grades, the 1926-S is most often seen in MS 62 to MS 63 condition, but only a small percentage are finer. Population: 18 in 64, 2 higher.
- 968 PCGS 1927 MS 64. A lovely, golden borderline gem. Usually when you find a Saint with this look it is either in a 65 or 66 holder or it's all beat up. A lovely addition to your collection. Yea, I know, it's a common date. You'll love it!
- 969 NGC 1931-D MS 63. The 1931-D is one of the legendary group of late date Saints from 1929 to 1932 that are all very rare and seldom seen except when a major collection is broken up. Possibly as many as 30-35 pieces are extant today in all grades, over half of which came from a "mini-herd" of approximately 15-20 pieces. Akers believes the '31-D to be of equal overall rarity to the 1931 and 1932 issues, and is roughly equivalent to the 1930-S in condition rarity. This piece shows a few small marks in the center of the obverse (mostly) and the surfaces are frosted with a pale olive tint at the margins of each side. A rare opportunity to acquire this elusive and highly respected major rarity in the series of Saint-Gaudens twenties. Population: 8 in 63, 4 finer. Trends \$23,500.

COMMEMORATIVE SILVER

- 970 PCGS 1893 Isabella Quarter MS 63, five pieces, ranging from mostly brilliant to deeply toned. (Total: 5 coins)
- 971 NGC 1893 Isabella Quarter MS 64. Steel-violet toning.
- 972 PCGS 1893 Isabella Quarter MS 64. A shimmering example framed in russet toning.
- 973 PCGS 1893 Isabella Quarter MS 64, five pieces, all essentially of gem quality. One piece is brilliant and the other four display attractive toning. (Total: 5 coins)
- 974 PCGS 1893 Isabella Quarter MS 67. Light original toning on the obverse while the reverse has screaming color in a variety of hues. For the toning and condition freak.
- 975 NGC 1900 Lafayette Dollar MS 63. Deep brownish toning.
- 976 PCGS 1900 Lafayette Dollar MS 63. A popular type which has always been in great demand. Toned in gold and brown hues.
- 977 NGC 1921 Alabama MS 64. A mostly brilliant coin.
- 978 NGC 1921 Alabama MS 66. Amazing quality for a Bama! The luster is unlike any we have ever seen on the type. The cheek of Kilby is as smooth as you can imagine. A coin for the finest comm set. Although the coin is virtually untuned we expect even those who prefer toned commens to bid hot and heavy on this lot. Sure to surprise the casual catalog browser when they check out the prices realized on this lot.
- 979 NGC 1921 Alabama 2x2 MS 65. Light gold peripheral color. Lustrous and pleasing.
- 980 PCGS 1925-S California MS 60, brilliant; and a 1946 Iowa MS 64, attractive golden-gray and orange toning over both sides. (Total: 2 coins)
- 981 NGC 1925-S California MS 67. A booming, vibrant obverse with touches of gold about the periphery. The reverse is more

deeply toned in a mottled combination of golds, reds, yellows, and greens. A fantastic coin.

- 982 PCGS 1936 Columbia MS 66. A lovely, problem-free example with claims to a higher grade.
- 983 NGC 1936-D Columbia MS 67. Light patches of russet color adorn virtually perfect fields.
- 984 NGC 1936-D Columbia MS 67. Unusual array of multi-colored toning.
- 985 PCGS 1892 Columbian MS 62, twenty coins all original and nicely toned, and five 1893 Columbians all like-graded. A great lot for trading. (Total: 25 coins)
- 986 PCGS 1892 Columbian MS 63, twenty coins all with varying degrees of toning. Imagine, a whole roll of these already certified. (Total: 20 coins)
- 987 NGC 1892 Columbian MS 63. Lightly toned with blue and violet peripheral accents.
- 988 PCGS 1892 Columbian MS 64, ten pieces, all have varying degrees of toning and we urge close inspection as several seem to be high end coins for the grade. (Total: 10 coins)
- 989 NGC 1892 Columbian MS 64. Pleasing and affordable in this sale.
- 990 NGC 1892 Columbian MS 64, ten pieces all of which are toned. Another nice and unusual lot of Columbian halves. (Total: 10 coins)
- 991 PCGS 1892 Columbian MS 65, ten pieces, many have lovely deep color while others just boast clean surfaces. (Total: 10 coins)
- 992 NGC 1892 Columbian MS 65. Lovely blue, red, and gold peripheries.
- 993 PCGS 1892 Columbian MS 65. A deeply toned, pleasing lot.
- 994 PCGS 1892 Columbian MS 65. Light gold obverse with a lovely deep blue reverse.
- 995 PCGS 1892 Columbian MS 65. Mostly brilliant with great eye appeal.
- 996 PCGS 1892 Columbian MS 65. For the collector who prefers lightly toned coins. The obverse is full white while the reverse has just a touch of color at the borders.
- 997 NGC 1892 Columbian MS 65 Prooflike. Lovely deep mirrors beneath the original toning.
- 998 NGC 1892 Columbian MS 65 Prooflike. Another example, this one being fully brilliant with no toning.
- 999 NGC 1892 Columbian MS 66. Easily the most colorful Columbian in the sale. Electric blue-green peripheries merging to a violet-red at the center. For the color nut.
- 1000 PCGS 1892 Columbian MS 66. Not only is this the nicest 1892 Columbian to be offered in this sale, but it is also one of the nicest commemoratives to be offered. Gorgeous rings of yellow, gold, blue, green, violet, and russet bounce off the semi-prooflike fields. The perfect coin for that quality set.

The January 1994 Orlando Sale

- 1001 NGC 1893 Columbian MS 62, five pieces, all lightly toned examples. (Total: 5 coins)
- 1002 PCGS 1893 Columbian MS 62, five pieces. The first in a run of group lots for the year 1893. (Total: 5 coins)
- 1003 PCGS 1893 Columbian MS 63, ten pieces, divided fairly equally among brilliant and toned examples. (Total: 10 coins)
- 1004 NGC 1893 Columbian MS 63, ten pieces, all exhibiting nice original color to varying degrees. A lot for the trader or hoarder. (Total: 10 coins)
- 1005 NGC 1893 Columbian MS 64, 15 pieces, ranging from brilliant to deeply toned. Here's a coin that a couple of years before the Columbus quinqucentenary was valued at over \$1,400. Go figure. Maybe it's because the movies were so bad. (Total: 15 coins)
- 1006 PCGS 1893 Columbian MS 64, a 20 piece lot, brimming with colorfully toned and premium quality pieces. Buy an entire lot for about the same price as 4 coins at the peak for this issue. (Total: 20 coins)
- 1007 PCGS 1893 Columbian MS 65. A smooth steely-gold example with blue iridescent accents.
- 1008 NGC 1893 Columbian MS 65. A bold striking, deeply toned on both sides in a mixture of reddish-gold, rose, and blue.
- 1009 PCGS 1893 Columbian MS 65, five pieces. These are all beautifully toned specimens that would be a nice little item to put away at today's lower prices. (Total: 5 coins)
- 1010 PCGS 1893 Columbian MS 65. Lovely original toning.
- 1011 NGC 1893 Columbian MS 65. Light violet and gold toning.
- 1012 NGC 1893 Columbian MS 65. Deeply toned in shades of gold, violet, green and blue.
- 1013 NGC 1935 Connecticut MS 64. Original silvery-gray surfaces, shading to golden at the borders
- 1014 PCGS 1935 Connecticut MS 64. The obverse is brilliant and the reverse displays a bit of streaky russet toning.
- 1015 NGC 1935 Connecticut MS 65. Highly lustrous with patches of golden color.
- 1016 PCGS 1936 Delaware MS 65. Brilliant or very close to it, with exceptional luster.
- 1017 PCGS 1936 Delaware MS 66. Another pleasing example, this one exhibiting lovely touches of color.
- 1018 NGC 1936 Delaware MS 66. A delightful, almost untuned example of the type.
- 1019 ANACS 1936 Elgin MS 66.
- 1020 NGC 1936 Gettysburg MS 66. Lovely russet toning. A very high-end example of the type.
- 1021 NGC 1922 Grant with Star MS 63. Fairly well struck for this rare variety, with both sides overlaid in milky golden-steel patina.
- 1022 NGC 1928 Hawaiian MS 65. Very light color and problem-free surfaces. Especially pleasing for the grade and worth a premium.
- 1023 PCGS 1935 Hudson MS 65. Light golden color.
- 1024 NGC 1925 Lexington MS 64. Boominglly lustrous obverse with a deeply toned reverse.
- 1025 NGC 1936 Long Island MS 65. Nicely toned and especially pleasing for the grade.
- 1026 NGC 1936 Lynchburg MS 65. Lightly toned.
- 1027 NGC 1936 Lynchburg MS 66. Light brownish-gold color.
- 1028 PCGS 1920 Maine MS 65. Deep original color.
- 1029 PCGS 1921 Missouri MS 64. A very difficult type to obtain any better.
- 1030 NGC 1921 Missouri MS 65. An especially clean cheek with a reverse that literally booms with luster.
- 1031 PCGS 1938 New Rochelle MS 67. Pleasing mark-free surfaces with a touch of color on the reverse. So who invented milk?
- 1032 NGC 1938 New Rochelle MS 67 Prooflike. Lovely mirrors over virtually flawless surfaces.
- 1033 PCGS 1936 Norfolk MS 67. Touches of lovely color about the peripheries.
- 1034 PCGS 1937-D Oregon MS 67. An especially vibrant, near perfect specimen that should please even the most fastidious commemorative collector.
- 1035 PCGS 1939-D Oregon MS 66. Fully brilliant and pleasing.
- 1036 NGC 1921 Pilgrim MS 64. A light golden haze covers the coin. Nice.
- 1037 NGC 1921 Pilgrim MS 65. Light golden-brown color.
- 1038 PCGS 1936 Rhode Island MS 66. lightly toned and pleasing.
- 1039 NGC 1937 Roanoke MS 66. A touch of light color.
- 1040 PCI 1937 Roanoke MS 66.
- 1041 NGC 1937 Roanoke MS 67. Light touches of color with semi-prooflike fields.
- 1042 PCI 1935-S San Diego MS 66.
- 1043 PCI 1926 Sesquicentennial MS 65. Light iridescent toning and far above average for the type.
- 1044 PCGS 1937-S Texas MS 66. A lovely coin housed in the old style PCGS holder.
- 1045 NGC 1927 Vermont MS 65. Yellow toning over pleasing surfaces.
- 1046 NGC 1927 Vermont MS 65. Lightly toned.
- 1047 PCGS 1936 Wisconsin MS 66. Mostly brilliant.
- 1048 PCGS 1936 York MS 66. One of the most common commems in this grade, thus affordable.
- 1049 PCGS 1936 York MS 68. Lovely, light sunset toning in yellows, reds, violets, and blues. Although one of the most common commems, there is nothing common about this coin.

The January 1994 Orlando Sale

TERRITORIAL GOLD

- 1050 NGC (1842-52) A. Bechtler Dollar, 27G, 21C, AU 53, K-24, R.3. Struck on a slightly buckled planchet, this piece is well centered but was struck with the dies slightly out of alignment causing the denticles on each side to be weak in one area. Original surfaces and showing light reddish color around the devices. Listed on page 262 of the current Red Book.
- 1051 PCGS 1855 Kellogg & Co. Twenty-Dollar XF 45, K-3b, R.5. The Short Arrows variety with the O in CO. buried in Liberty's hair. This is a choice example with strong central details but some softness noted on the peripheral stars. There is just a bit of light reddish color surrounding the devices and few surface marks are present. Listed on page 275 of the current Guide Book.
- 1052 PCGS 1850 Moffat & Co. Five-Dollar XF 40, K-4a, R.4. Softly struck on the highpoints and showing even wear as well, this is a remarkably attractive example of this popular California gold coin. The piece is bright and shows strong reddish accents over the predominantly green-gold surfaces. Just a few small marks are noted, none of which are important in the overall scheme of things. Listed on page 263 of the current Guide Book.
- 1053 NGC 1849 Norris, Gregg, & Norris Five-Dollar R.E. XF 40, K-4, R.4. The variety with the period after ALLOY. Evenly worn over the highpoints, this historic territorial gold coin shows much reddish color and a few small marks scattered over each side. Listed on page 262 of the current Red Book.
- 1054 PCGS 1849 Oregon Exchange Co. Five-Dollar AU 53. This is one of the highest graded Oregon pieces we have ever seen. The surfaces are bright and retain much of the original mint luster with some light reddish color surrounding the outer devices. The strike is incredibly bold for this notoriously weak issue. The beaver on the obverse is usually ill-defined, but not on this coin, and while we hesitate to say it has "Full Beaver" we will say that the central device on the obverse is fully detailed. An outstanding example of this rare territorial issue. Listed on page 276 of the Red Book.
- 1055 PCGS 1852 Wass Molitor Ten-Dollar, Large Head VF 20, K-4, R.5. A very scarce territorial issue, this variety is distinguished by the wide, uneven date and the obverse die having been cut too deeply causing the reverse to be considerably weaker in detail. Otherwise, an original coin with some color around the devices and numerous small abrasions scattered across each side. Listed on page 273 of the current Red Book.

CALIFORNIA FRACTIONAL GOLD

- 1056 PCGS Undated (1852-4) Liberty Head Round Quarter Dollar MS 64, BG-222, R.4. Good color and strong prooflike reflectivity in the fields. Sharply struck.
- 1057 PCGS 1873 Liberty Head Octagonal Quarter Dollar MS 65, BG-727, Low R.6. Well struck throughout with pleasing golden-orange color.
- 1058 PCGS 1874/3 Indian Head Octagonal Half Dollar MS 61, BG-945, R.5. Struck from heavily lapped dies, the coin has a light reddish patina on each side, and shows only the slightest softness of strike in the centers.

PATTERNS

- 1059 PCGS 1854 Large Cent, Judd-161, R.5, PR 65 Brown. Large cent pattern with the regular dies head on the obverse and date below. The reverse has ONE CENT surrounded by a laurel wreath and UNITED STATES OF AMERICA at the periphery. Struck in bronze with a plain edge. Most of the original color is gone now, but overall the coin is a light brown and no carbon spots are noted.
- 1060 PCGS 1856 Flying Eagle Cent, Judd-182, R.7, PR 62 Brown. Regular dies on both obverse and reverse, but struck in bronze rather than the copper-nickel as adopted. A very rare pattern of which only 2 pieces have been certified by both of the major services. Glossy brown surfaces with a few stray marks here and there.
- 1061 PCGS 1856 Flying Eagle Cent, Judd-184, R.8, PR 62. A very rare Flying Eagle cent pattern that has the adopted obverse with a reverse that shows an oak wreath with a broad shield at the top. Struck in copper-nickel with a plain edge. Darker colored surfaces, but when a coin is R.8, who cares?
- 1062 PCGS 1858 Indian Cent, Judd-211, R.5, PR 64. The obverse is of the adopted design of 1859 and the reverse shows an oak wreath. Struck in copper-nickel with a plain edge. Light steel-blue centers with rose peripheries.
- 1063 PCGS 1858 Indian Cent, Judd-213, R.5, PR 64. Regular dies obverse of 1859 with the 1858 reverse. Struck in copper-nickel with a plain edge. The fields show heavy die striations and a good amount of reflectivity. Light pinkish-rose color with a tan center on the reverse.
- 1064 PCGS 1859 Half Dollar, Judd-241, R.4, PR 63. The Longacre large head design on the obverse paired with the reverse that has 50 CENTS surrounded by a cereal wreath. Struck in silver with a reeded edge. Struck on a striated planchet and showing a few scattered hairlines. Mostly brilliant with a bit of light peripheral color.
- 1065 PCGS 1869 Dime, Judd-696, R.5, PR 63. Standard Silver dime with the head of Liberty decorated with three stars and a scroll below. The reverse has 10 CENTS in the center with a wreath of oak and laurel around. Struck in silver with a reeded edge. Hazy golden and blue toning.
- 1066 ANACS 1869 25-Cents, Judd-732, R.6, PR 60. High wire rims from an excess of extruded metal. Standard Silver issue, struck in aluminum with a plain edge. Free of corrosion but just a trifle scuff and displaying a gouge in the reverse field.

WORLD COINS

- 1067 PCGS 1935 Canada Dollar MS 65. Light mottled toning.
- 1068 PCGS 1941-C Newfoundland Five-Cents MS 65. Blue and gold peripheral toning on the reverse.
- 1069 PCGS 1892 South Africa 1 Pond XF 40. Single Shaft.
- 1070 PCGS 1935-LB Switzerland 20 Francs MS 65.
